

BRITISH DESTROY  
TURK TORPEDO BOATATTEMPTS TO INTERFERE WITH OP-  
ERATIONS IN THE DARDANELLES

Fires Three Torpedoes at English Transport Manito but Misses Mark—Mud Halts Operations in Carpathians—Several Attacks are Made in West.

London, April 17.—(10 p. m.)—A Turkish torpedo boat which attempted to interfere with the preparations for the resumption of the operations against the Dardanelles and Asia Minor by attacking the British transport Manito, was driven aground on the coast of Chios this morning and destroyed by the British Cruiser Minerva and British torpedo boat destroyers.

One Hundred Men Drown.  
An official statement which was issued tonight in reference to the affair says that three torpedoes were fired at the Manito but missed the mark but that one hundred men from the transport were drowned. How this occurred without the transport being struck is not explained as particulars apparently have not yet been received. This is the only official statement from the allies on the land and sea operations against Turkey, but from unofficial sources it is learned that warships have been attacking the forts at Bulair on the Gallipoli peninsula, while Turkish reports say that attacks have been made on the Dardanelles from the outer entrance and that the Majestic and Swiftsure have bombarded the forts near Gaba Tepeli.

Mud Halts Operations.  
The arrival of spring, which has given the eviators their opportunity, has brought almost to a standstill the battle in the Carpathians. The Russians are still attacking in the neighborhood of Uzok Pass, the main road through which is commanded by the heights held by the German allies, but with the melting snows, the overflowing streams and rivers and the whole country covered with deep mud, for which it is notorious, nothing on a large scale can be attempted. The same conditions are interfering with the Austro-German outflanking movement in the direction of Stry. Beyond the repulse of attacks, the only success achieved on either side has been the capture by the Russians of some heights between the villages of Telopch and Zucula which lie on the southern slopes of the Carpathians to the southeast of Lupkow pass. This indicates that the Russians are trying to get in the rear of the army defending Uzok Pass which they have been unable to take from the north.

French Seem Satisfied.  
In the west there have been attacks at widely separated points along the front, but, on the whole, the French seem satisfied, for the moment with the advances they have made in Alsace, the Woivre, the Argonne, Champagne and north of Arras, which in the view of British military critics proves that the allies can advance when they so desire.

A frontier incident, which during ordinary times would pass unnoticed, has occurred on the Italo-Austrian border. It is said that an Austrian patrol recently passed through Italian territory, ignoring the protests of the customs officers. Speed up Factories.  
These matters however, do not altogether divert the attention of Englishmen from domestic questions such as the liquor problem and the acceleration of the output of war munitions, which parliament is expected to take under consideration in earnest next week. Committees are already at work speeding up the work of the armament factories. A number of establishments which have heretofore devoted part of their attention to government work have been taken over by these committees and the working force in other establishments has been increased in order to speed up the output of guns and ammunition. The committees are engaged in securing as many men as possible for work in these factories and in some cases municipal employees have been commandeered for the purpose.

As to the liquor question it is said that an agreement between the government and the opposition has virtually been reached on the scope of the restrictions to be introduced.

POINDexter TO SEEK RE-ELECTION  
ON THE REPUBLICAN TICKET

States Record of Last Legislature is a Lively Reminder That the Division of Progressives Must Cease.

Spokane, Wash., April 17.—The only Progressive in the United States Miles Poindexter of Washington, announced here tonight that he would seek re-election on the Republican ticket. He took his seat in the senate as a Progressive on April 17, 1911, and his term will expire March 3rd, 1917.

Senator Poindexter arrived at his home here today and after a day's consultation with friends issued a statement which read in part: "I will be a candidate for the Republican nomination for senator. As the nomination is to be by primary the people will have full opportunity to decide all questions connected with my candidacy.

"The record of the last legislature is a lively reminder that if we are to hold and consolidate, to use the war paraphrase, the ground gained in recent years, the division of progressives must cease.

"There will be a concerted and vigorous effort on the part of Republicans to place a Progressive on the ticket for president."

BURGLARS ATTEMPT ENTRANCE  
TO MURRAYVILLE BANK SAFE

Door is Blown Open by Yeggmen Who are Frightened Away Before Booty is Obtained—No Clue to Perpetrators.

Early Saturday morning thieves attempted to burglarize the bank at Murrayville. They succeeded in blowing off the front door of the safe with high explosives, which aroused the citizens and the yeggmen were frightened away before they secured any booty. Officials of the bank and citizens, together with officials from Jacksonville, made a thorough search for the safe blowers, who made their getaway by means of an automobile, which they had left at the southwest corner of the village. The Illinois Bankers Association were notified of the attempt and they sent a telegram to Sheriff Graft offering a reward of \$500 for conviction of each man.

After hearing of the attempted burglary Sheriff Graft, County Clerk C. A. Boruff and States Attorney Tilton went to Murrayville and gave their assistance in searching for the men. They followed the automobile trail some two miles out of Murrayville and then it was lost.

The safe was blown open about 3 a. m. The men had secured heavy blankets, saturated them thoroughly with water and placed them about the safe. The burglars first attempted to break off the handles of the safe and later broke the combination lock through which they put the explosives, which were set off by means of an electric wire which ran outside of the building. The explosion succeeded in breaking open the outer door, but the inner door remained intact.

FILE BRIEF IN  
BEHALF OF SETTLERS

Washington, April 17.—Preparatory to oral arguments before the supreme court next week on the government suit to forfeit titles of the Oregon and California railroad company to 2,300,000 acres of Oregon land, valued by some at \$50,000,000 former Representative A. W. LaFayette today filed with the court a brief in behalf of sixty-four intervening "actual settlers" upon the land.

ONE IS KILLED WHEN  
AUTOMOBILE OVERTURNS.

Decatur, Ill., April 17.—Stephen J. Fitzpatrick was killed and four were seriously injured today when their automobile overturned at Dawson, Ill.

Nellie Moriarty was the only one who could give any explanation of the accident, saying that the automobile skidded coming down a hill and turned over twice, being stopped by a fence. All live in Decatur.

URGE INTERVENTION  
BY UNITED STATESAMERICAN MISSIONARIES IN CHINA  
APPEAL TO WILSON

Characterize the Japanese Demands On China as Acts of Aggression, Such as Will Eventually Present a Menace to the United States.

Pekin, April 17.—Intervention by United States in the negotiations now proceeding between China and Japan is recommended to President Wilson in the appeal recently sent to him by American missionaries in this country. The message was 5,000 words long and was forwarded to Washington by cable. It characterizes the Japanese demands on China as acts of aggression, such as eventually will present a menace to the United States. Recalling the fact that Japan has at present in this country doubled her usual quota of troops (amounting to 60,000 men) the missionaries urge that Japan be notified that the excess of troops should be removed. The understanding here is that a Chinese official or several of them, paid the cable charges, amounting to nearly \$6,000, on the message to President Wilson.

Signers of Communication.  
This communication was signed by the Revs. E. W. Thwing, John Wherry, C. H. Fenn and W. A. P. Martin, all connected with the American Presbyterian mission at Peking; the Rev. Chauncey Goodrich of the American board of commissioners for foreign missions who is stationed at Tientsin; the Rev. H. H. Lowry of the Methodist Episcopal mission at Peking, and the Rev. C. F. Hubbard.

Constitutes Menace to Americans.  
The missionaries ask "that the governments of both China and Japan be notified that the presence of unusual bodies of Japanese troops on Chinese soil not only embarrasses the freedom of negotiations but constitutes an outrage to the rights of China and a serious menace to the peace and safety of Americans and foreigners generally" and recommends that "pending the removal of excessive contingents of Japanese troops all negotiations should be suspended."

ROBERTS AND FOURTEEN OTHERS  
TO START FOR LEAVENWORTH TODAY

Special Car Will Carry Convicted Terre Haute Men to Federal Penitentiary.

Indianapolis, Ind., April 17.—Mayor Donn M. Roberts, Judge Eli H. Redman and thirteen others convicted in federal court in the Terre Haute election conspiracy case and sentenced to the federal penitentiary at Leavenworth, Kas., will begin the trip to prison tomorrow afternoon. United States Marshal Mark Storen, who will be assisted by a number of deputies, has arranged for a special car for the prisoners who are due to arrive at Leavenworth on Monday morning.

Roberts, against whom the Terre Haute council recently voted to bring impeachment proceedings, was hopeful until last night that he would not have to make the trip. His sentence was for six years in prison and to pay a fine of \$2,000.

Washington, April 17.—The Federal reserve bank today announced that it had granted authority to the National bank of New York to open a branch at Montevideo, Uruguay. This bank will be a branch of the one already established at Buenos Ayres.

BITTKE HAS SLIGHT  
CHANCE FOR RECOVERY

Chicago, April 17.—Frederick W. Bittke of the Illinois Athletic club whose skull was fractured while driving in the National A. A. U. competition last Thursday night, has a slight chance for recovery. It was said at the hospital today. After thirty hours of unconsciousness he regained his senses intermittently today and was able to take a little food.

ACCEPTS INVITATION.

Washington, April 17.—President Wilson today accepted an invitation to attend a session of the Potomac Presbytery of Presbyterian church here next Wednesday night. The president also accepted an invitation to formally open the congress of the Daughters of the American Revolution here on Monday.

NOT BADLY DAMAGED.

Los Angeles, Cal., April 17.—If the Japanese Cruiser Asama, aground in Turtle Bay, Lower California was as badly damaged as generally supposed, it would have been wrecked by the sea long before this, according to a sworn statement here today by Hubert M. Kittle who says he was honorably discharged in 1909 from the United States navy with the rating of Chief Machinist Mate. According to Kittle, the Asama merely ran her nose into a sand bank.

RECEIVES NO REPORT.

Washington, April 17.—Secretary Daniels said tonight that no report had been received from Commander Noble Irwin of the Cruiser New Orleans detailed by Admiral Howland of the Pacific fleet to investigate reports alleging that Japanese warships had established a base in Turtle Bay, Lower California.

The cruiser New Orleans was due at Turtle Bay today and a radio report is expected tomorrow.

## War News Summarized

"Appreciable progress on the two banks of the Ficht river," as announced in the French official statement, is an indication that the allied forces are pushing their campaign in Alsace, for this river runs past Colmar, capital of Upper Alsace, which is one of the French objective points.

This one of the movements by which in conjunction with the operations along various sections of the battle front from the sea to the Vosges mountains the allies hope to put pressure on the Germans to force them gradually to withdraw.

The military authorities at Paris say that the offensive operations are developing all along the line and that the pressure thus applied may simply grow in intensity until the "grand offensive" long looked for, has been inaugurated by a gradual process and not by a sudden onslaught on some fixed date. For the time being Russians and Germans appear to be deadlocked around that pivotal point of the Carpathian mountains—Uzok Pass. Several millions of men are fighting there for supremacy, but although they have ceased to advance the Russians have not been driven back.

Unfavorable weather conditions, swollen streams and impassable roads are having a great influence on these operations in which no decisive action can be gained by either one or the other of the opposing forces for weeks to come.

The most striking incident in the naval warfare is an attack made by a Turkish torpedo boat on a British transport, the Manito, in the Aegean Sea. Seemingly the Turkish warship did damage, for the British official statement, although saying that three torpedoes fired at the Manito failed to hit her, adds that it is reported that 100 men on the transport lost their lives through drowning.

The British Cruiser Minerva and several destroyers pursued the Turkish craft and drove her aground.

Mrs. Turner, who was recently stricken with paralysis is in a serious condition.

## CONSERVATORY NOTES.

Miss Marguerite Butler will give her song recital next Thursday evening, April 22nd, instead of April 23rd, as announced last week. She will be assisted by Miss Alice Phillips, at the piano, and a quartet composed of Miss Carrie Dunlap, violin, Miss Rachel Jerauld, piano; Dean Cochran, violin and Paul Morrison, cello. The program will take place in Recital hall, and the public is cordially invited to attend.

At the next meeting of the Phi Omega Society papers will be read by Helen Frazer and Inez Pires, and violin, voice and piano. Solos will be given by Helen Sorrells, Dean Cochran and Grace Hoffman. Mrs. Wilson went with Miss Hazel Bell Long to Springfield Thursday evening to hear the concert, given by the Amateur Musical club. Dean Cochran received his commendation for his violin playing at Vandalia in the "Vandalia Union."

Miss Hazel Bell Long will give her song recital toward the end of April.

Mr. Munger accompanied Mrs. Helen Brown Read in her vocal solos at the Opera House on Friday evening at the entertainment for the benefit of the Free Kindergarten.

Mr. Kritch and Mr. Munger will give solos at the meeting of the Illinois Teacher's association in the David Prince School auditorium on Thursday afternoon, April 22nd.

Mrs. Wilson will sing on Friday afternoon, April 23rd at the meeting in the same auditorium.

RACIAL DISTURBANCE RESULTS  
IN ARREST OF TROTTER.

Boston, April 17.—A racial disturbance which developed tonight in the lobby of the theatre where a motion picture play dealing with the reconstruction period in the south was presented, resulted in the arrest of William Munroe Trotter, Secretary of the National Equal Rights League; Rev. Aaron W. Puller, pastor of the Peoples' Baptist church, two other negroes and a white man.

The trouble followed alleged refusal of the theatre to sell tickets to Trotter.

RELEASE DIVER AFTER  
FOUR HOURS' WORKBECOMES ENTANGLED IN LINES AT-  
TACHED TO SUBMARINE F-4

Crilly Works Strenuously to Free Loughman—Naval Officers Say Crilly's Feat Was Remarkable—Loughman is Brought Slowly to Surface.

Honolulu, T. H., April 17.—While working at a depth of 220 feet outside the harbor where attempts are being made to raise the Submarine F-4, Diver William F. Loughman became entangled in the lines attached to the submarine this morning, but was released after heroic efforts lasting nearly four hours.

At last reports Loughman was being brought slowly to the surface and was resting at a depth of ninety feet to avoid too rapid a change of air pressure. He was lowered shortly after 10 a. m., and was being brought to the surface when he became entangled. Diver Frank Crilly who recently made a record here for deep sea diving, was sent down to aid Loughman. Both divers worked strenuously to disengage the lines of the submarine from the air tube and line attached to Loughman's apparatus. Finally Crilly signalled that Loughman was clear.

Crilly was brought up first, emerging a few minutes after 2 o'clock. It was said that he had suffered no serious effects, but that he was exhausted.

Naval officials said Crilly's feat of releasing Loughman was remarkable. Such accidents as befell Loughman could not be prevented, it asserted, when divers were working at a great depth.

## POLICE NEWS.

Lloyd Hare was arrested by Captain Trahey and Patrolman Moore on a charge of stealing a grip belonging to Fred Conover from a buggy near the Cherry barn. Hare admitted his guilt and the contents of the grip were returned to the owner with the exception of some insurance policies and other papers. Not realizing the value of these policies, Hare burned them. He has been in trouble a number of times before, and it is likely that this misdemeanor will go hard with him. He had a hearing before Squire Dyer and was bound over to the grand jury in the sum of \$1,000.

TRY MINISTERS FOR  
CHURCH BURNING.

Newark, N. J., April 17.—The burning of a church in Newark, the securing of a divorce at Stevens Point, Wis., and other events said to be mysterious occurrences in the life of Rev. Louis R. Patmont, are expected to be revealed in detail in court on Monday, when Patmont goes to trial on charge of arson. Patmont has recently been in the West preaching prohibition. In Denver he announced his intention of returning to face the indictment against him for burning a church. Last November it was reported that Patmont had obtained a divorce in Wisconsin. His wife, who lives here, says she knew nothing of the divorce of her husband until her relatives sent her a clipping from a newspaper. She charges the minister with tricking her out of possession of her children.

The Polish Christian church was burned on April 10, 1913. Patmont had been conducting services there. He disappeared at that time, and in an investigation that followed strong indications that the blaze started deliberately were found. Patmont was indicted a few months ago on evidence furnished by his wife.

When Patmont arrived in town, his wife immediately put the police on his trail. He accosted his wife's sister and told her that he wanted Mrs. Patmont to write to the little girl, Ruth, and stating that the other child, Louis, is living with the minister's parents in Milwaukee.

Mrs. Patmont will be the principal witness on Monday, it is expected. She has told a pitiful story of her married life, which may be repeated in court. When the divorce proceedings were going on in Wisconsin, she was in Boone, Ia., taking a Bible study course. Her babies were supposed to be in Milwaukee. But, she says, they had been put into some sort of a home by their father.

FARMERS OPPOSE GRAIN  
FREIGHT RATE INCREASES

Will Appear Before Inter-State Commerce Commission—Jacksonville Men to go.

A. C. Rice, as president of the Illinois Farmers Grain Dealers association, and Thomas Cain, as representative of the Arnold Elevator company, will go to Chicago tonight to be present at the freight rate hearing before Commissioner Daniels of the inter-state commerce commission. Forty-one railroads west of Chicago have united in an effort to secure an increase in freight rates, and the farmers are among those who are protesting. This is said to be the first time that farmers have directly appeared before the inter-state commerce commission in a freight rate fight. They are not only appearing in person, but have employed counsel and are seeking in a very forceful way to prove that an increase in grain rates would be an unfortunate fact not only for the farmers but for the general consumer as well.

Because the farmers feel that the railroads have pursued an improper policy in discussing rate matters; because they feel that the railroads have unduly attempted to influence the public and the public servant, and because it is now proposed to increase the freight rate on grain they (the farmers) are opposing such increases. From an economic standpoint they are opposing these increases solely because they feel that grain rates are already higher, comparatively, than rates on many other things and that any increase would be unjust.

This opposition is being conducted by the state association of farmers' elevator companies in Illinois, Iowa, Minnesota, the Dakotas, Nebraska and Kansas. The right of the railroads to present their side of the case is unquestioned. The right of the farmers to do the same thing ought to be beyond question as well, and especially so since this is the first time in the history of the inter-state commerce commission when farmers have appeared in their own behalf in an adjustment of freight rates.

## MATRIMONIAL

Stacy-Combs.  
Riley G. Stacy, son of Mr. and Mrs. Anderson Stacy, and Miss Maude Brogdon, were married at the court house Saturday afternoon by Judge W. E. Thomson. The groom works at the car shops, Horn-Hilton.

The many friends of William F. Horn and Miss Mamie Hilton will be surprised to learn of their marriage in Des Moines, Iowa, Thursday, the ceremony taking place at the home of the bride's nephew, Hubert A. Littler. After the wedding a breakfast was served to the near relatives and friends.

The groom is a son of Mr. and Mrs. John H. Horn of 646 South Hardin avenue and is a well known contractor and decorator of this city. The bride formerly resided in Jacksonville but since Mr. Littler moved to Des Moines she has been making that city her home. Mr. and Mrs. Horn have many friends in Jacksonville who will wish them well. They arrived in Jacksonville last night over the Wabash and they will reside in a home recently furnished by the groom on South East street.

## REMARKABLE EXPERIENCE

Young Farmer Northeast of City has Close Call from Death.

A very fortunate ending of what might have proven a serious matter occurred on the farm of Earl Carpenter, three miles northeast of this city this week. John Barthlow, a young man 18 years of age, while at work on the Carpenter farm, repairing fence Thursday forenoon had occasion to use some large wire fence staples, and for convenience had one of them in his mouth. In an unfortunate moment he swallowed the staple which he had in his mouth, and at once reported the matter to his employer, who telephoned to a physician in this city, and was informed that it was a case that demanded immediate attention, and the young man should be brought to the city that an operation might be made as there might be a chance of life or death if neglected. The young man refused to undergo an operation and said if he was going to die it would not be in a doctor's office, anyhow. He suffered considerable pain Friday and a strong physic was given him. Saturday morning at about 11 o'clock the medicine had the desired effect and the staple was discharged.

CARPENTERS WILLING TO  
ARBITRATE DIFFERENCES

Chicago, April 17.—Efforts to settle strikes and lockouts in Chicago which has thrown 125,000 wage earners in the building trades out of employment were made tonight. John A. Metz, president of the Carpenters' District Council, said that his organization was willing to arbitrate. Leo J. Winkecke, chairman of the state board of arbitration, announced plans which the board will submit to the striking carpenters and their employers on Monday.

ELECTRIC TRAIN DERAILED.

Chicago, April 17.—A westbound Aurora, Elgin & Chicago electric train was derailed today when it ran into an open switch at Forest Park. Several of the 100 passengers were bruised but none required the attention of a doctor.

### Long Legislative Session.

Indications are now that the present session of the legislature will last well into June and may run until the end of the month. Speaker Shanahan has used every possible effort to hurry the work of the legislature but so many weeks were lost at the beginning of the session in the speakership deadlock that it is not likely that adjournment this year can be much ahead of that two years ago. The records show that thus far 730 bills have been introduced in the house and 346 in the senate, making a total of 1076. At the same time two years ago 1046 bills had been introduced and the total number considered by the assembly two years ago was 1613. Very few bills wholly new in character have been presented at this session, and nearly all measures being similar to proposed laws of former years. Only two bills have been presented relative to woman's suffrage, one of which proposes to give complete suffrage and the other proposing to wipe out the law already on the statute books.

### Farmers in Fine Mood.

When asked for "news" Saturday a Jacksonville banker said: "Well, you might put in the paper that not a single complaint was heard from farmers today. I don't mean this as a criticism of farmers, or to say that they are always finding fault, but I do mean that conditions just now are very satisfactory. The roads are in excellent shape, the splendid rain we had recently has brought out pastures, was a great help to wheat and put the ground into fine condition for the spring plowing. Then, market tendencies both in grain and live stock, have been better recently. There is every indication that the farmers who still have their corn will get a good stiff price for it, and as to wheat, while the government report shows a wide acreage, the foreign demand is certain to be such that the price will be high. There is still a little wheat held locally by farmers, but only a comparatively few bushels. As an indication that prices are certain to be good, even before the advances of the last day or two, elevator operators were offering to contract wheat."

### The Waterway Bill.

Governor Dunne feels sanguine that favorable action will be taken by the legislature on his waterway bill. This bill, which will come before both legislature and senate this week from committees, provides for an eight-foot waterway between Lockport and Ulica. The plan has often been talked about in past years, and Governor Dunne and other advocates of the bill maintain that the completion of the Panama canal now makes the project highly important to the manufacturing industries of Illinois. The building of this waterway would, by means of the Chicago drainage canal and the Illinois and Mississippi rivers, give a waterway from the Great Lakes to the gulf, making the route to New Orleans a thousand miles nearer than via New York. It is said that the water route from the eastern states to the Pacific coast has caused a cut in transcontinental freight and that without the proposed waterway to the gulf that the eastern states will have a continued advantage over Illinois in the matter of transportation. The waterway project is one which represents a vast expenditure of money, while favorable action is likely, there will be no final results until the matter has been thoroughly thrashed out by the legislators.

### Poinexter Comes Back Home.

Senator Miles (Poinexter) of Washington, the only Progressive in the U. S. senate, has just announced that he will seek reelection as a Republican. The senator declares that if the ground gained in recent years is to be held, "this division of Progressives must cease." He expresses the belief that the Progressive element is dominant in the Republican party and that it is likely that the nomination for the presidency will be in accord. Like others allied with the Progressive movement, Senator Poinexter will be welcomed back to the fold. Republicans are seemingly, and with wisdom ready to forget the past and are preparing for an unbroken front in the next national campaign. Election results in Chicago, St. Louis, and a number of other cities have given the best kind of evidence that Republicans have seen the errors in the past and now are looking toward more prosperous and better days.

### STUDENTS HOLD MARKET.

The town students of the Woman's college held a market in the Cookery at the college Saturday. The girls are furnishing a room for their own use at the institution.

## LOOK OUT FOR THE SUBMARINE.

(Editorial from the Jacksonville Courier.)  
The people of Jacksonville should, during the few days yet to elapse before Tuesday's election, keep their eyes peeled for the submarine. Judging from the events of the past few days and from the expressions of opinion volunteered by observing Republicans cognizant with existing facts and conditions, the Jacksonville Journal is liable to blow up before Monday. No need to be astonished if the Republican organ of the community comes out in support of Mayor Davis for reelection and bases its contentions for justification upon the mere allegation that Mr. Davis is a Republican and that the governmental machinery of the municipality should not be permitted to fall into the hands of a man or of men who are not Republicans.

"Keep an eye open and do not be surprised if, probably Sunday morning, the Journal's submarine J-23 shall be seen sticking its snout above the surface of the municipal waters, its periscope having its glass in hand, spying for the good ship "Commission Form" with a view to puncturing its hull and sending it to the bottom with a dull thud.

"Most of the radical old line machine Republicans would welcome such an action on the part of the morning sheet. They picture a scene of devastation and terror existing in the community should anyone but Republicans be placed on guard."

The Journal has steadily and consistently refused to approve any attempt to raise the cry of party politics in the present campaign for the election of mayor and commissioners of the city of Jacksonville. It has hoped and yet does, that our people will study the needs of the municipality and the character and standing of the men who are candidates—and vote for the best interests of the community.

There are no party headings on the ticket to be voted, this is a community, not so large or great, but that all citizens interested may inform themselves fully regarding candidates. It is every voter's duty to do so. When that is done the only advice the Journal has to give is that the voter mark the ballot for the men he or she honestly believes will be for the "greatest good for the greatest number" in the four years that they will be elected to serve.

The candidates are:  
For Mayor.  
George W. Davis.  
Henry J. Rodgers.  
For Commissioners.  
Jos. F. Brennan.  
F. M. Brewer.  
Jerry Cox.  
Geo. P. Davis.  
Charles R. Knollenberg.  
J. Edgar Martin.  
Joshua Vasconcellos.  
William F. Widmayer.

In the first and second wards Republican candidates for membership on the board of education have been named. George W. Ingund is the first ward candidate and at one of the most largely attended primaries ever held in the ward received a large majority of the vote. As a school board member he has evidenced a decided interest in school affairs and has repeatedly declared that if elected next Tuesday he is ready to devote all necessary time to the discharge of his duties and that his greatest concern will be to see the schools well ordered and constantly improving.

Levi H. Pratt's candidacy in the second ward was prompted by his interest in the schools. Years ago he graduated at the high school and ever since that time he has kept in touch with the school affairs to some extent. He believes that the school interests are most important and that any board member whose acts are shaped by any other influence than the welfare of the pupils would be recreant to duty.

## AN OPEN LETTER.

To Mayor George W. Davis:  
Will you please explain to the voters in district No. 7 why you and Mr. Knollenberg were so opposed to a change in the polling place in that district from the dingy, unsanitary basement of the court house, which fails so to meet the legal requirements as well as those of decency, to the clean, light, convenient room in the David Prince school?

Will you please explain to the voters of district No. 7 why the judges you appointed should have the right to say they would hold the election at the court house when the city clerk, twenty days before the election, had posted notices proclaiming that the election would be held at the David Prince school?

Will you please explain to the voters in district No. 7 why you do not move the booths, ballot boxes and tables to the room in the school before next Tuesday, leaving the judges to follow them or stay away, and be replaced by others? (See Sec. 8, Art. II, General Election Law.)

Will you please explain to the voters of district No. 7 how you expect to hold a valid and legal election at the court house when the notices have been posted for two weeks announcing it would be held at the David Prince school?

The women voters are vitally interested in the questions, and in their behalf I respectfully solicit an answer.

Lillian I. Danskin.

COMMUNICATION.

I have been consulted by persons calling at my home, also by phone, by parties wishing to know why the W. C. T. U. had endorsed certain candidates for commissioner. I have each time when asked about the matter emphatically denied the statement. Since the nomination of candidates for commissioner, at one of our W. C. T. U. meetings which was an open meeting, Mr. Knollenberg addressed the women, setting forth his aims should he be elected commissioner.

The president, Mrs. W. I. Brown, suggested we as a W. C. T. U. endorse now at this meeting, Mr. C. Knollenberg for a commissioner. One of our members replied: "Madam Chairman, I do not think it is best to meet your request. I arose at once and replied, as individuals, we can endorse and work for whoever we wish to be commissioner, but as a W. C. T. U. we cannot; it is against the principle of our organization to endorse any candidate. I do not think Mr. C. Knollenberg wishes us, as a union, to endorse him." Mr. Knollenberg replied: "I do not wish the W. C. T. U. to endorse me, by any means. I only came here to make a few statements in regard to my position as a candidate."

In closing let me say it was perfectly proper and right for Mr. Knollenberg to speak to the W. C. T. U. Any other one of the candidates would have received the same courtesy had they wished to speak to the W. C. T. U. as he did.

Hoping this statement, which is true, will at once settle this affair which is not very pleasant for Mr. Knollenberg and certainly is exceedingly unfortunate for the W. C. T. U.

Mrs. Sarah J. Cocking, Superintendent of Finance, W. C. T. U., Jacksonville.

CLEANSES YOUR HAIR  
MAKES IT BEAUTIFUL

It Becomes Thick, Wavy, Lustrous and All Dandruff Disappears.

Surely try a "Dandierine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a clout with Dandierine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, the application of Dandierine dissolves every particle of dandruff, invigorates the scalp, stopping itching and falling hair.

Dandierine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of Knowlton's Dandierine from any drug store or toilet counter and try it as directed.—Advertisement.

MARY PICKFORD  
In the celebrated romantic comedy  
By Channing Pollock

### Such a Little Queen

In five reels of motion pictures Her latest and greatest triumph.

Mary Pickford, most beloved of all motion picture stars, makes the greatest impression of her illustrious career in Channing Pollock's famous play of comedy and sentiment. "Such a Little Queen" produced in 6 reels by the Famous Players Film Co. The basic theme of the play is the experience of a young queen exiled by reasons of political dissension in her own kingdom, who finds a refuge in America. The little queen proves that there is not much real difference between royalty and the common people when they are wrecked by the buffets of circumstances.

## JUSTUS V. READ DIES AT ATLANTA HOME

Former Jacksonville Resident Expired After Brief Illness—Long a Merchant Here—In Y. M. C. A. Work Many Years.

E. E. Crabtree and other relatives in Jacksonville of Justus V. Read have received word of his sudden death at Atlanta, Ga. Mr. Read died there Saturday morning after a brief illness. He was for a number of years a merchant in this city, and after disposing of his business, to Frank Byrns, returned to Y. M. C. A. work in which he had been previously interested. He had been for a number of years located in Atlanta, where he was the secretary of the Y. M. C. A. The funeral services will be held in Atlanta today, and the remains will probably be brought to Jacksonville, arriving next Tuesday. The funeral party will go at once to the home of Mrs. James T. King, 876 West State street, and announcement will be made later as to any services here.

Mr. Read was married to Miss Clara Wood, daughter of the late Mr. and Mrs. A. C. Wood, in this city, Dec. 29, 1875. Mrs. Read is a sister of Mrs. James T. King of this city and of Mrs. James W. Crabtree of Lawton, Okla. The deceased is survived by his wife and the following children: Harlan Eugene and Howard W. Read, of St. Louis; Walter W. Read of Chicago; Ralph R. Read of Buffalo, Wyo.; Mrs. Thaddeus Morrison and Mrs. Julian Van Hedges, both of Atlanta. One son, Charles Ernest Read, died about ten years ago.

Justus V. Read was born in Chautauque county New York about sixty-two years ago, and when a boy of twelve came to this state with his parents. The family settled near Winchester, and it was not long after until both parents died. Mr. Read in Minneapolis and came to Jacksonville and entered the employ of the late J. A. Gollra. Subsequently he was admitted to partnership and the firm became Gollra & Read. In 1881 Mr. Read sold out his interest in the business and moved to St. Louis where he was a member of a firm engaged in the manufacture of hats. Still later he retired from this business and entered Y. M. C. A. work, in which he had long been interested. He served as secretary at Bloomington, Ill., and at Minneapolis, Minn. Determining to again enter business life he resigned his position in Minneapolis and came to Jacksonville, purchasing the business of his former partner, J. A. Gollra. He continued to conduct this business along successful lines until about fifteen years ago, when he sold to Frank Byrns. As already mentioned, after leaving Jacksonville for the last time Mr. Read became secretary of the Y. M. C. A. at Atlanta, where his active work gave him a large place in the state organization. He was a member of the Baptist church and for a great many years took an active interest in various lines of religious work in addition to that of the Y. M. C. A. He was a man with a high sense of duty and honor and unsparingly kept in that path which he believed alone would lead to right results. As a citizen of Jacksonville he occupied a high place in the estimate of the community and he was held in like regard at his home in the south.

### HAVE PURCHASED NEW HUPMOBILES

William Newman yesterday sold to Charles P. Gillett, superintendent of the State School for the Deaf a five passenger Hupmobile and to Edward W. Brown, 1042 West State street a Hupmobile roadster. Both are 38 horse power cars with equipment which make them "the last word in auto construction." Mr. Newman has sold sixteen new cars this season, all of them to particular purchasers who compared auto "points" before placing their orders.

### SOME CHICKEN.

He was walking slowly down the street in deep thought. As he passed a very pretty young lady, he softly murmured, "Some chicken." The young lady promptly had him arrested. Before the judge he explained, "Honest Judge, I didn't mean her. I had just bought tickets for the poultry association banquet. I was there last year and the chicken was great, and I know it will be the same this year." "You're right, young man," replied the judge. "I have tickets myself. It's hard to keep that chicken off one's mind and I'll have to be careful or I'll get in trouble myself. You're discharged. I'll see you at the banquet next Thursday evening at the Central Christian church at 6:30 p. m. prompt."

**SCHOOL DIRECTORS CHOSEN.**  
School elections were held through out the county Saturday. Charles Read and Austin Patterson were successful candidates at Ebenezer school, defeating James Middleton, Zed Bell and Paul Read. At Union school Samuel Bridgman and Edward Patterson were chosen, and at Walnut Grove school Walter Shumaker and Richard Stanley were the successful ones.

### CAPPS WEEK WILL BE OBSERVED AT THE TOMLINSON STORE

Emphasis to be Placed Upon the Importance of the Well Known Capps Establishment to Jacksonville.

Especially attention is called to the advertisement of T. M. Tomlinson which occupies a page in this issue. The advertisement is one of a series calling attention to "Capps Week" at the Tomlinson store. Mr. Tomlinson's purpose is to emphasize that here in Jacksonville is one of the greatest organizations of its kind in America, and one that has been a most important factor in the material upbuilding of this community—the J. Capps & Sons establishment. The firm constantly employs more than four hundred people and the products are sold in practically every state in the union. It is said that the Capps establishment has the distinction of being the only one in America which takes the raw wool and turns it out in a finished garment.

The Capps clothing has come to have a standard value both for quality and style, the country over, and yet it is likely that a great many people in Jacksonville and Morgan county do not realize how great is the business which is being conducted here in accordance with the very highest business principles. Jacksonville people have reason for pride in this institution and they should be glad to give it their support. The week will doubtless be one of benefit and will emphasize in no uncertain way not only the high class of the Capps goods, but also the importance of this industry to this community. Mr. Tomlinson's advertisements this week will be well worth reading, and a visit to his store and an inspection of the Capps lines worth while.

**BAPTIST MISSION SABBATH SCHOOL.**

The Baptist Mission Sunday school which is under the fostering care of the First Baptist church and is located at the intersection of Ashland avenue and Farrell street, is showing a vigorous growth and added interest. There is a total enrollment of members of 180 and last Sunday the attendance was 120. A few months since a prize bible was offered for each member who should attend Sunday school for four months without missing a single Sunday. Last Sunday it was learned that prizes had been won by 40, and the bibles were distributed to that number of fortunate prize winners. Albert DeWitt has been installed as superintendent of the school and he is ably assisted by a corps of teachers and a number of substitutes. The pastor of the First Baptist church holds services in the building each Friday evening when he delivers a brief sermon. The services are attended to almost the seating capacity of the house, and are proving very instructive and interesting.

**WANTED**—\$3000.00, 5 years at 6 1/2 per cent, on farm land worth \$9000.00 or more. The Johnston Agency.

**GRAIN PRICES PROMISING.**  
Farmers are pretty certain to get high prices for their grain the coming year, based on offers that elevators are now making. Harold J. Johnson recently sold to the Joy Prairie Elevator company the crop from ninety acres at \$1.12 1/2 a bushel. Mr. Johnson has something more than two hundred acres in wheat and will probably contract the rest of it. He realizes that the present market justifies the expectation that grain will be worth more than \$1.12 at harvest time, but he also realizes that many changes are likely to take place in market conditions between now and then, and knows also that there is mighty good profit in raising wheat at \$1.12.

### MAIN STREET CARS TO RUN CONTINUOUSLY

A continuous run for Main street cars is announced by W. B. Miser, superintendent of the Jacksonville Railway & Light Co., with three cars on the line as is the case with State street. The new schedule will begin this morning and is hoped thereby to keep the cars on the exact quarter hour. The through run will be of especial benefit to North Main street residents as the single car on that line is rarely able to make the trip in fifteen minutes. Cars will begin today on the new run.

**SILK, SILK MIXTURES and MADRAS NEGLIGEE SHIRTS.** Color fast and workmanlike features are shown by FRANK BYRNS Hat Store.

**BUILDING LOT IS SOLD.**  
Mrs. Ida F. Smith recently sold her West College avenue property to James Whalen of Franklin. This is one of the few vacant lots on West College avenue and will make a very desirable location for the home Mr. Whalen expects to build there. It has a frontage of 55 feet and a depth of 189 feet.

**NEW GASOLINE EQUIPMENT.**  
The Illinois Tire company has just installed a curbstone gasoline outfit of the Pennsylvania pattern. It is a modern outfit, including screens and filters, which separate any water or dirt from the gasoline, and located as it is, will prove a great convenience to automobile owners.

## It's the Film That Makes The Picture

While none of us expect our cameras to reproduce pictures in all their original colors, still we find ourselves saying, "It ought to look more natural. I wonder what's the trouble." Particularly is this so when we attempt to record outdoor pictures. Nature hides her paint box in spite of us.

But with Ansco Film and Cyko Paper we can accurately make different tones of black and white or sepia the values of the original colors. And unless the film you use does record these color values accurately the results will be disappointing, no matter what paper you print your negatives on.

## The Butterick School of Dressmaking

JACKSONVILLE is going to have this year the prettiest and the smartest crop of Summer Frocks that ever bloomed hereabouts; and what is more, it's going to be at a very much smaller cost of production than a good many women ever dreamed could be accomplished—all of this, provided that Mrs. A. Milligan, here from New York, to tell us how it's done, has her way. If anybody in the world knows how to show a woman how to make the most of her best points, and how to offset the defects of her figure—if there are any—so that folks will forget they ever existed, it is Mrs. Milligan, for she has had oceans of experience in just this sort of thing, and she comes fresh from the Butterick School of Dressmaking in New York, where such things are being worked out daily, and where there isn't anything new in fashions on this side of the Atlantic or the other that is not immediately reported.

The school Mrs. Milligan is now conducting at Hillerby's store, is only one of many which the Butterick School of Dressmaking in New York sends to various cities every month. Mrs. Milligan has been here over a week already, and she leaves on the third of May. "Now that the first pupils are completing their gowns and showing them to their friends, she remarked, 'more and more women are asking for appointments. I am usually very busy the last two weeks of my stay in any city. I take as many pupils as I possibly can, but the number is limited, because each pupil must get individual instruction.'

We are showing a lot of pretty stuff too. There's a special lot of wash silks and silk stripes worth 50c per yard at a special price 29c yd

## MAYOR DAVIS TELLS OTTAWA ABOUT REAL CONDITIONS HERE

Telegram Sent to Congregational Church Pastor There to Set Right Some Misstatements Made in Local Opinion Fight.

Mayor George W. Davis yester- day received a telegram from the pastor of the Congregational church at Ottawa asking for some facts about Jacksonville's financial con- dition and the matter of improvements made during the past seven years. It seems that the saloon forces there have been publishing advertisements in which they declared conditions were deplorable in this city since local option became effective. Mayor Davis replied in a way to set the matter right, outlining the facts as they are and proving in a very clear way that conditions here have been flagrantly misrepresented. The tele- gram to the mayor and his reply fol- low:

Ottawa, Ill., April 16, 1915.  
Geo. W. Davis, Mayor,  
Jacksonville, Ill.

Liquor advocates published in Ot- tawa papers today the following: Comparing Jacksonville with Otta- wa, is like comparing a cemetery to a bustling factory. Jacksonville has a high assessed valuation; Otta- wa is the reverse. Jacksonville has made no public improvements in seven years. It is dead in its own shell. It is in debt one hundred and sixty thousand dollars. They have drawn already seventy-five per cent on nineteen fifteen taxes. Are these statements true Answer night letter our expense.

Claude Allen McKay,  
Pastor Congregational church.

Rev. Claude Allen McKay,  
Pastor Congregational church,  
Ottawa, Ill.

Don't know anything about Otta- wa but Jacksonville is anything but a cemetery. For more than twenty years Jacksonville has levied the maximum allowed by law. Prac- tically every city in the state is do- ing likewise. The last seven years Jacksonville has paved East College street, West College street, West North street, South West street, Franklin street and East Court street. These improvements amount- ing to over eighty-five thousand dollars. In addition to this Jack- sonville has cancelled thirty-six thousand dollars of non-registered bonds and twenty-four thousand dollars of registered bonds. Have also remodeled light plant and have nearly eight hundred lights where for- merly had 185. Also improved water plant and receipts have more than doubled in the past over those of five years ago. These improve- ments cost over twenty thousand dollars. Pretty good for a ceme- tery town.

Geo. W. Davis.

## FROM MR. MORTON.

To the voters of Jacksonville:  
I saw in the Jacksonville paper a short time since a statement from Mr. Brennan that he had moved the water pipes at the pumping station at a very small cost and increased the flow of the water very much.

I am from Missouri; will you please explain how, with same pump, same stroke, in fact every- thing identically the same, how simply moving pipes would increase flow of water.

The pump in one of the original five wells is out of commission and has been for over a year. Did the gentleman make an effort to repair that pump No, instead they bought a drill with the intention of sinking new wells; after working the drill several months they com- pleted one well.

Taken from the Jacksonville Journal:

"The new centrifugal pump has been received, added equipment will greatly increase supply of water at the north side station. The new centrifugal pump which is to be added to the equipment at the north side station was received and Com- missioner Brennan said the pump would be installed just as soon as the motor is received; the motor was received O. K. This pump has a capacity of 300,000 gallons per day and will be installed in the large well recently completed. The other four wells are now produc- ing daily about 700,000 gallons and the addition of a 300,000 gallon well will make a million daily from the north side station. This will make it possible to use the 2,000- 000 gallon pump for delivering water in the day time. This will be pumped directly to the stand pipe so that satisfactory pressure will be afforded in all parts of the city during all the twenty-four hours."

Now listen, Mr. Voter, and I will tell you about the large well recently completed: They got everything in order and perhaps one of them said: "Let her go Gallagher", and the pump had all the water out of the well in a very few minutes. I suppose they did not have a strain- er on the pipe and they discovered the 300,000 gallon pump was not intended to pump sand and gravel. They speak of pumping water direc- to the stand pipe. They cannot fill the horse troughs about the park from any wells or any improve- ments they have made at the north side station. There is one consol- ation the city has, they have a sec- ond hand drill at a cost of about \$900. I suppose Mr. Knollenberg thought that he had saved the city the controller's salary which amounted to \$900. It would be well to blow it in for a drill, and balance accounts. In conclusion I thought it would be well to remind the ladies especially of these gentle- men keeping the city in almost to- tal darkness for several months in an attempt to force the \$50,000 bond issue. Some people prefer darkness to light.

## NOTABLE BIRTHDAYS TODAY.

April 18.  
Charles M. Schwab, industrial or- ganizer, financier and steel magnate, is 53 years old today. From a stake boy with an engineering corps he rose to the head of the Carnegie works and to the presidency of the big U. S. Steel Corporation. He is now one of the most active men in the steel industry, as shown by the big contracts which he negotiated with European nations last winter. Schwab made a record run to Otta- wa in a special train, where it is said he talked with Premier Borden and the Duke of Connaught. His meeting with the Canadian officials followed soon after the visitor of Ambassador Spring-Rice to the Gov- ernor General. Then Schwab dashed to Europe, and he came back with a big secret. The words of the Pure River works at Quincy were soon hammering away on subma- rines. Then Schwab visited Wash- ington, and as a result is said to have cancelled the submarine order, or to have modified it so that none of the submarines would be deliv- ered to European nations until after the war. Activity on submarines was transferred to Canada, it was said and never denied. The fact that American steel workers had been offered big jobs in Canada led to the belief that the construction of British submarines had begun there.

Mr. Schwab was born at Williams- burg, Pa., April 18, 1862. As a boy he drove a stage ten miles each day. He entered Carnegie's service as a stake driver in an engineering corps. He worked his way to chief engineer in six years. He was placed in charge of the various Car- negie plants and became president of the company in 1897. In 1901 he was made president of the U. S. Steel Corporation and held that of- fice for two years. He is now head of the Bethlehem Steel Corporation, and a director in many corporations. He has contributed heavily to phil- anthropy and church work.

**DUNNE SPEAKS FOR THE WATERWAY BILL**

GOVERNOR BELIEVES MEASURE WILL PASS LEGISLATURE.

Statement Made as to Benefits Expected From Proposed Waterway Would Put Illinois on Better Competitive Basis With Eastern States.

Springfield, Ill., April 17.—In a statement issued today Gov. Dunne declared: "I am very confident that the waterway bill now pending before the legislature after being amended in certain necessary details, will be passed by both houses of the general assembly by a very conclusive vote."

The measure provides for an eight foot waterway between Lockport and Utica, thereby making direct water communication between the great lakes and the Gulf of Mexico by way of the Chicago drainage canal, the proposed waterway, the Illinois and Mississippi rivers.

Friends of the bill hope to have it reported out of the committee and presented to both houses next week with the recommendation that it be passed. On complaint of citizens of Ottawa, engineers employed by the state are now revising the bill in an attempt to prevent interference with Ottawa's sewer system through the raising of the Illinois river at that point.

"The passage of this bill in my judgment, will benefit every citizen of the state," declared the governor in his statement.

"The market prices for every bushel of wheat, corn and oats and of every head of cattle, swine and sheep are made in the great city of Chicago. The opening of this waterway will reduce transportation rates to and from Chicago."

**New Transportation System.**

"The opening of the Panama canal has revolutionized transportation in the United States. Upon the eastern seaboard, goods can be shipped through the Panama canal to the western coast at much less than it has heretofore been carried by railroad and the railroads have been compelled to reduce their prices to meet the competition and many commodities are now being shipped from so far west as Ohio and Indiana to the eastern seaboard and thence shipped by ocean steamers to the Pacific coast, which have heretofore been shipped directly across the continent by rail. Unless this waterway be opened the opening of the Panama canal will prove a disaster to the state of Illinois instead of a benefit."

"New Orleans is 1,000 miles nearer the Panama canal than is New York and if we shipped by water the products of our state to New Orleans, we could avail ourselves of the commerce opened up through the opening of the Panama canal. If we do not, many of our manufacturers will languish and the products of our farms will sell for less than if we had such waterway transportation. It may not seriously affect rates of transportation for passengers, but transportation upon merchandise would be cheaper not only along the waterway, but by reason of its competition with the railroads running through inland cities, it would force a reduction of freight rates by the railroads to such cities."

**Project is Commended.**

"This project has attracted the attention and received the commendation of the president of the United States, the Gov. of Louisiana and the commercial association of New Orleans and other cities."

"During recent trip of the members of the senate and house waterway committees along the proposed waterway route, the project was received with enthusiasm in all of the cities visited along the Illinois river. In Ottawa and Morris certain changes in the engineering details were suggested, which are now being carefully considered by the engineers who have the matter in charge and I have every confidence that the engineering details affecting these cities will be harmoniously adjusted."

**EUROPEAN WAR NOTES**

Vienna, via London, April 17.—(11:30 p. m.)—The following statement was given out by the Austrian war office tonight:

"Owing to the possibility that the war may last a long time and in order to secure the necessary reserves the untrained landsturm men between the ages of 18 and 45 will hereafter be liable for military service."

Vienna, via London, April 17.—(7:50 p. m.)—The war office made the following statement today:

"Russian Poland and western Galicia were quiet yesterday."

"On the Carpathian front, the situation is unchanged."

"In the wooded mountains where the Russians made several severe attacks, we captured 1,250 prisoners. During these attacks and those of the following night, the Russians suffered severe losses."

"In southeastern Galicia and Bukovina, there were artillery engagements."

Petrograd, via London, April 17.—(8:10 p. m.)—The following official statement from general headquarters was issued today:

"The actions in the Carpathians on April 15th, were concentrated in the sector between the villages of Telepoch and Zuelia, where we consolidated our positions after desperate bayonet fight on the heights that the enemy had organized."

"We took 1,140 prisoners among whom were forty officers and also three machine guns. The enemy suffered great losses in making counter attacks which were without effect."

"In the direction of Stry we successfully repulsed the enemy units which had returned to the attack. On the other fronts there were no changes."

"Activity of a mere animated character on the part of the German advance guards is shown in the districts of Mariampol and Kalwary. The emperor has left for the front."

London, April 17.—The British admiralty in a statement issued tonight announced that a Turkish torpedo boat had been sunk in the Aegean sea.

The text of the admiralty statement was as follows:

"The transport Manitou, carrying British troops was attacked by a Turkish torpedo boat in the Aegean this morning."

"The Turkish boat fired three torpedoes at the transport all of which missed their mark. The torpedo boat then made off but was chased by the British Cruiser Minerva and British torpedo boat destroyers and was finally run aground and destroyed on the coast of Chios in Kalamuni bay."

"The members of the crew of the Turkish war ship were made prisoners."

"It is reported that about 100 men on board the transport lost their lives through drowning. Full particulars have not yet been received."

**ILLINOIS COLLEGE NOTES.**

Among the most important events of recent commencements have been the twenty-fifth anniversary reunions of certain classes. Especially noteworthy was the combined reunion of '87 and '88 which was celebrated in 1913. The Class of 1890 is making plans to celebrate next June the twenty-fifth anniversary of its graduation. Professor F. W. Sanford of the University of Nebraska, is acting as secretary of the class. The following are the other living graduates: Albert Baldwin, Charles Edmund Blackburn, Harry M. Capps, Elmer Layton, Joseph De Silva, Jr., Isaac Donaldson Rawlings. Among the non-graduates are the following: Horace A. Carriel, Harry F. Downing, J. H. Laurie, James S. Merrill, W. H. Moulton, M. C. Petrich, James A. Stice.

Professor P. F. Whisler will lead the Devotional service at Academy Hall on Sunday evening.

Members of the Faculty are in great demand for service as judges at high school declamation contests. Professor Ames went to Pleasant Hill on Wednesday to act as judge at the High school declamation contest and on Thursday morning he addressed the high school students for a few moments. On Friday night Professor Ames and Principal Harris acted as judges at the Chapin contest. Principal Harris will go to Ashland on Wednesday to act as judge there.

Professor P. F. Whisler will visit various high schools during the coming week to display the trophies that are being offered as prizes in the Illinois College interscholastic meet. Lucius S. Smith, Jr., '18 wrote the words for the "stunt" which the Illinois College students contributed to the "Union Depot."

**Joshua Vasconcellos**  
Candidate for Commissioner

Joshua Vasconcellos was born in Jacksonville July 25, 1865, and has spent his entire life here. He is a carpenter by trade and since 1891 has been a general contractor. Vasconcellos & Sons, the firm of which he is the head, is credited with some of the largest and best buildings in and around Jacksonville. This list includes the Old Peoples' Home, Nichols park pavilion, Morrison block, Illinois hotel, C. & A. passenger station and freight house, I. O. O. F. temple, Illinois Steel Bridge Co.'s offices, Passavant hospital nurses' home, The C. & A. passenger station at Lincoln and the high school building at Bluffs are among the out of town jobs that he has successfully handled.

Mr. Vasconcellos served as street commissioner under Mayor Theodore Tyrrell from April 21, 1898 to May 4, 1899, and the reports on file at the city hall show that he took excellent care of the highway, sidewalk and street paving repair departments.

He expended in this work and for the retopping of East Court street \$3,193.06. It is worthy of mention, too, that from these reports it is shown that during his term of office Mr. Vasconcellos turned over to the city several sums received from the sale of dirt and old lumber. He was the first commissioner to use the drag on unpaved streets, and altogether the work of his department was conducted in a very efficient and business like way.

Mr. Vasconcellos served on the Jacksonville cemetery commission and during that time the board submitted an ordinance to the city council which resulted in the vacating of land worth several thousand dollars to the city. For the past eight or ten years Mr. Vasconcellos has taken a very active part in the affairs of Northminster church and in various movements looking to the betterment of conditions in Jacksonville. He has the reputation of being ready with service in answer to every call, and whenever he serves on a committee, that committee is certain to accomplish something.

Although he makes no special "fuss" about his work, Mr. Vasconcellos is very active in all the departments of the church to which he belongs. Mr. Vasconcellos is an avowed enemy of the liquor traffic and has not hesitated to express his belief that Jacksonville is better off without saloons. Needless to say he is a firm believer in the strict enforcement of all laws. In municipal affairs he believes that a candidate should not make too many promises, but he is willing for the people to take his record as evidence of what he stands for. He believes that the city should own its own light plant and should develop it to a proper degree, and that it is also important for the city to retain its water plant and to expend upon it all the money necessary to keep it in condition and to develop it in a manner justified by conditions.

SEVEROID'S HOMER IN NINTH WINS CONTEST

Hits One of Jasper's Fast Straight Balls Against Scoreboard and Scores Two Ahead of Him—Athletes Defeat Yanks.

St. Louis, April 17.—With the call, 3 to 0 Severoid hit one of Jasper's fast straight balls against the scoreboard for a home run in the ninth inning today scoring E. Walker and Clarence Walker ahead of him. These three runs, with one in the same inning, were enough to beat Chicago by four to three.

James' wildness gave Chicago its scores.

## BROOKFELDS OVERCOME THREE RUN LEAD AND DEFEAT BUFFALO

Neither Knapp nor Ford Could Stop Visitors' Batting Streak—Other Federal Scores.

Buffalo, April 17.—Brooklyn overcame a three run lead and carried off the opening game from Buffalo today 8 to 4. Schulz pitched himself into several bad fixes out he managed to pull out of them until the eighth inning. Neither Knapp nor Ford could stop the visitors' batting streak however, and they scored enough runs in the ninth win. Hal Chase lined out a home run.

CAPTAIN EVERS STRAINS TENDON IN LEFT LEG.

Injury Will Probably Keep Him out of Game for Two Weeks—Cards Defeat Cubs in Exciting Ninth Inning Rally.

Boston, April 17.—Captain John Evers of the Boston Nationals strained a tendon in his left leg and was carried off the field during the game in which Boston defeated Brooklyn by 5 to 1 today.

The accident occurred when Evers slid into second base in the eighth inning. It probably will keep him out of the game for two weeks.

The game was marked by a return to battling form by the locals whose runs were scored by bunched hits. Three Brooklyn runners were caught off the base, two of them in one inning.

Wheat made a sensational running one-handed catch.

### II. THE GAME IN JACKSONVILLE

Relative to the game of baseball in Jacksonville, I think I may say with authority that the person responsible for the introduction of the game was Line Chandler of Chatterville, who first saw baseball played while he was a student in one of the eastern colleges and who, I understand, was later a student in Illinois college in 1865 where he assisted in organizing the first Illinois college nine known as the Hercules. Mr. Chandler was here in August 1865 and at a public meeting held at the Court House, which stood in the center of what is now Central Park, a team known as the Hardins was organized. George McConnell was elected president, and R. R. Stevenson, now of Olathe, Kan., was elected secretary and treasurer.

The following, according to the best information I have been able to obtain, composed the original Hardin nine:

Charles Edger, catcher.  
Lon Greenleaf, pitcher.  
John King, first base.  
Sam Palmer, second base.  
H. O. Cassell, shortstop.  
George Rutledge, third base.  
S. O. Barr, left field.  
H. G. Whitlock, center field.  
J. M. Mitchell, right field.

It is interesting to note that at the time they were players, Sam Palmer was sheriff of the county, and H. G. Whitlock was county judge. The first match game played in Jacksonville was between the Hardins and the Illinois college nine, already referred to and the Hercules. The Hardins made a number of trips and became quite famous through their string of victories. In the later sixties, they took part in the Bloomington tournament and won the second prize by defeating the Chicago White Stocking Juniors, coming home with a fine ebony bat, silver mounted and suitably engraved as an evidence of their prowess. S. O. Barr came home with a silver loving cup awarded him for being the champion home run hitter of the tournament. In 1867 the team went to Springfield where they played the Springfield Capitals, the Hardins making 135 runs to 85 for the Capitals the limit of play being 9 innings as at the present time.

The early games were played in Wolcott's pasture, located near what is now the Old Hoffman Concrete Works. The players wore long gray flannel trousers and flannel shirts, and later canvas shoes were added to the playing outfit. Spiker shoes, gloves, padded suits, catchers masks and shin guards were unheard of at this time. The early catchers held a piece of hard rubber between their teeth as a protection from foul tips. The ball used had a rubber core which made the sphere a lively one. A batter could call for a high or a low ball and if he struck at the ball and missed it a strike was called upon him, but no strikes were called for spitting the plate or curving it over the corner as in later times, and the batter was never given free transportation to first base through the medium of called balls. A foul ball caught on the first bounce was declared an out. There were real fans in those days and it is related that a conductor on the C. & A. train who at one time played in the Hardins ran his train into Jacksonville two hours ahead of schedule time in order to participate in a much heralded contest. Jacksonville was early upon the baseball map and since 1865 many teams have come and gone.

#### Jacksonville Alerts.

Following the Hardins came the Jacksonville Stars and then the Jacksonville Alerts and among those who composed the latter team which was also famous in its day, were the following:

John A. Glover.  
James Brown.  
Murray McConnell.  
Norman Broadwell.  
George E. Meyers.  
John Clark.  
Hugh Barr.  
Mart Cobb.  
Chas. K. Marsh.  
Jack Rowe.  
Dave Rowe.

#### The Blues of 1885.

One of the most popular teams was the one managed by W. H. Dalton and later by Edward Whitmer, in 1885, and were known as the Jacksonville Blues. The Blues played in the park located just north of the Deaf and Dumb Institution, between Webster and Finley avenue and Ferris and Driscoll were battery partners in that team at earned a wide reputation. Silver King, one of the greatest pitchers that ever stepped into a pitchers box, was a member of this team, playing center field, and alternating in the box with Ferris.

The Blues played the famous Buffalo National League team before more than 800 people in 1885 when the Big Four consisting of Dan Brouthers, Hardie Richardson, Jack Rowe and "Deacon" White, composed the infield for Buffalo.

The original Blues were all Jacksonville players. Among the number were:

Walter Gruber, catcher.  
James Smith, pitcher.  
Frank Wolfe and Joe Brennan, second basemen.  
Pete Rabbit, third base.  
Mike Rabbit, center field.  
George Vickory, right field.  
Thomas Clark, shortstop.

Later in the season Ferris and Driscoll, Gus Sheringhouse and Forquary, semi-professional players, were secured and supplanted the local players in the positions of catcher, pitcher, second base and left field.

Among the directors of this team were Capt. Alexander Smith, Ed-

ward McConnell, M. H. Carroll with W. H. Dalton as manager.

#### In League Company.

Later Jacksonville fans became more enthusiastic and sought membership in league company, becoming members of the Three Eye League in 1892, then the Western Association in 1894, then the Kitty League, the Iowa League, Central Association and Northern League in order named. Such well-known players as Guy Hecker, Con Strouthers, Guy Adolot, Bobby Caruthers, Frank Belt, Harry Berte and Clarence Rowland were in managerial role, the latter now being the manager of the Chicago White Sox in the American league having been selected for that position by Charles Comiskey, owner of the White Sox.

#### Parks Various Located.

The parks where the games have been played have been variously located. Wolcott's pasture was the place where the Hardins became famous and the grounds of Duncan Grove addition on the west was one of the best of the local diamonds. After the School for the Deaf leased this land, the Finley street park where the Struthers team played was the journeying place of baseball devotees. Then came the park on South Main street, on the Goitra land and the last park which was demolished a few years ago, was on the Tholen land, on Lafayette avenue, near the old Fair grounds. Nichols park now affords the only diamond that can boast of such a name, outside of the grounds on College hill and the State School for the Deaf. Many games have been played in Park Place opposite the insane grounds, but I do not believe these grounds were ever fenced or had a grandstand or bleachers.

Among the players who have played in Jacksonville and who afterwards became famous or who drifted in here after a career in major companies, may be mentioned the following:

#### Some Famous Players.

The Rowe boys, Jack and Dave, who were members of the Jacksonville Alerts; Silver King, already referred to, and afterwards famous with the St. Louis and New York league teams; Pat and George Tebeaux, afterwards with Cleveland, and now I believe owner of the Kansas City team; Jack O'Connor, who played here in 1885 and who had a career in the majors, at one time manager of the St. Louis Browns; Bobby Caruthers, famous as a pitcher with St. Louis and Brooklyn, and who was a local manager and afterwards umpire; Dad Clark, famous with the New York Nationals; Henry Riez, the famous Jacksonville, with St. Louis and Cincinnati; Larry Chappelle, who played right field on the last league team in Jacksonville and who hailed from Jerseyville, now a member of the Chicago White Sox who purchased this player at a cost of \$18,000. When Chappelle played in Jacksonville, there were many wise ones who doubted his ability to stick out the season with the local aggregation. Jimmy Hackett gave promise of great performance on the diamond and I would have undoubtedly made a star of the first magnitude had his eyesight not failed him. Paul Malone, Hy Jasper, Grover Hartley, and Charles Fanning are among those who went into big company after leaving Jacksonville.

The first league in which Jacksonville had membership was the Three Eye League of 1892. Among the cities represented were: Joliet, Rockford, Rock Island, Peoria, Terre Haute and Evansville.

In 1894 Jacksonville was a member of the Western Association composed of the following cities: Des Moines, Peoria, St. Joseph, Mo., Quincy, Lincoln, Neb., Omaha, Neb., Rock Island and Jacksonville, Ill.

In the Kitty league of 1906 Jacksonville was numbered with Vincennes, Cairo, Danville, Mattoon and Paducah.

The Iowa State League, often called the Central Association, was composed of Burlington, Keokuk, Waterloo, Oskaloosa, Ottumwa, Marshalltown and Quincy. Kewanee at one time had a berth in this league.

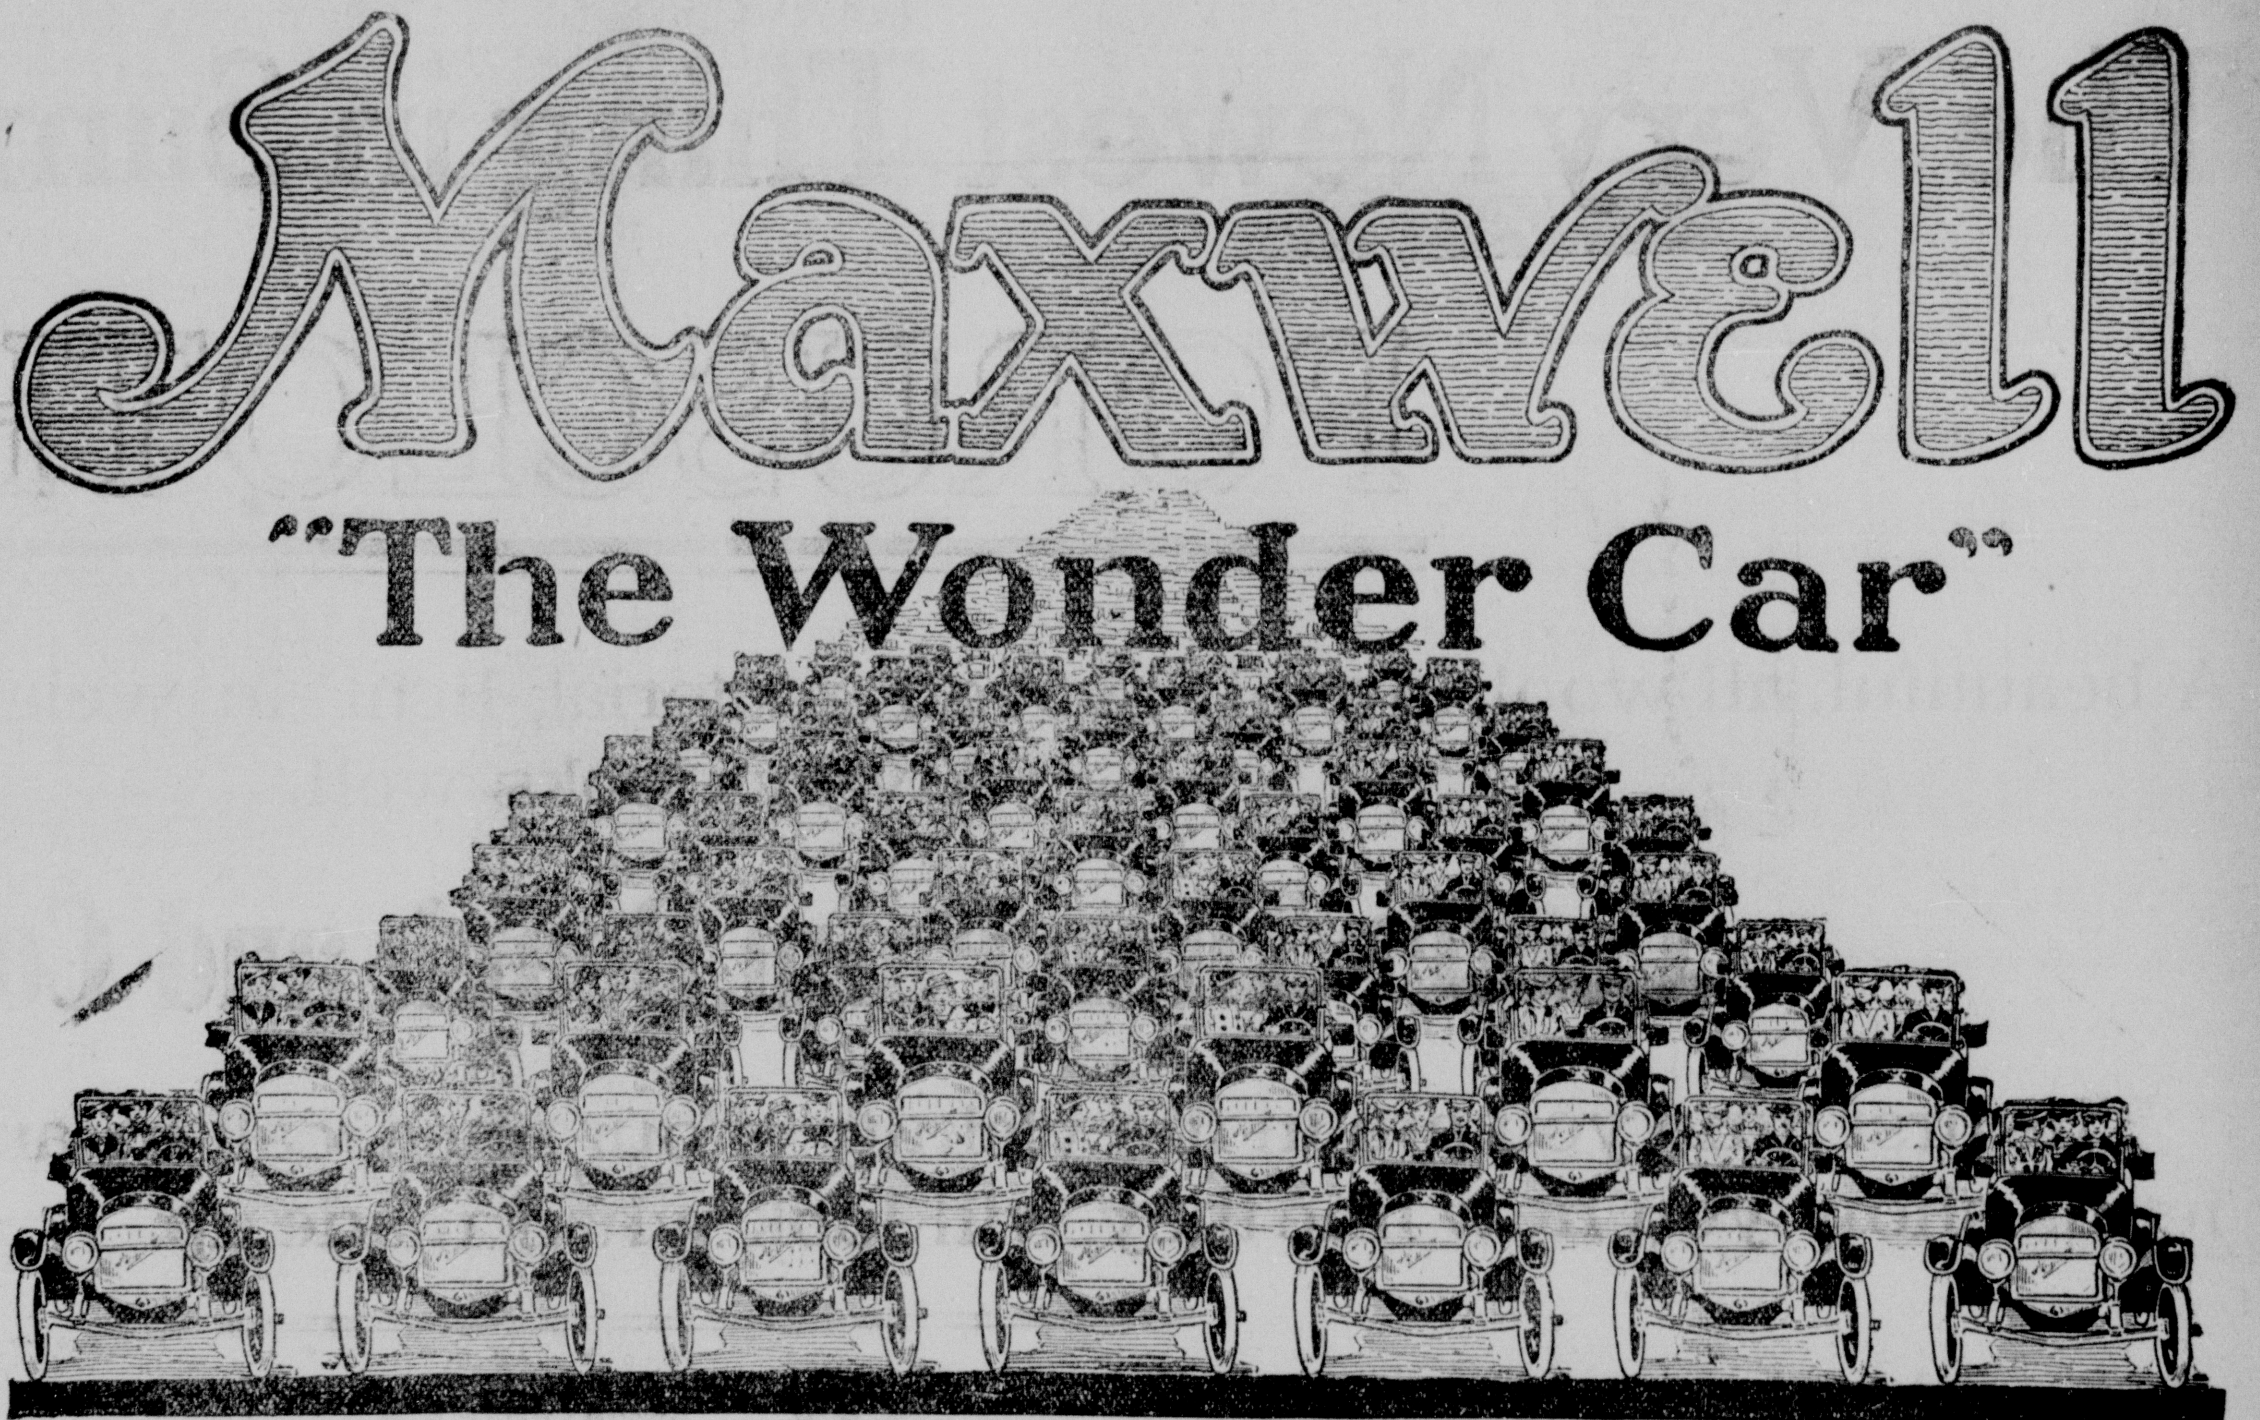

In the Northern league, Joliet, Kankakee, Decatur and Muscatine were among the towns represented.

#### Twenty-One Inning Game.

On of the longest games ever played in Jacksonville was the game between Jacksonville and Burlington, played at the West Side Park, June 26, 1907. The game went for 21 innings and the final score was 3 to 2 in favor of Jacksonville. Burlington made 16 hits and 5 errors and Jacksonville 16 hits and 5 errors. The batters were "Jerry" Akers and Belt for Jacksonville, and "Ratty" Green and Ellegumman for Burlington. The game lasted three hours and five minutes.

#### BIRTHDAY OF WANDERLUSTERS

Washington, April 17.—The Washington Wanderlusters, a motley lot of hikers who hit the rural trails in Maryland and Virginia each Sunday, will tomorrow celebrate the first anniversary of their unique organization. A thousand hikers will be on hand tomorrow noon, if the weather is fair. The sunrise section, less in numbers, will get an early start into the jungles of Rock Creek Park. During the past year the Wanderlusters have grown in numbers from a little group to a band of five or six hundred. Everything about the hikes is informal, and many women and girls keep the pace and gain in health and pleasure on the hikes.

## 38,000 owners have given the "acid test" to 38,000 Maxwells in the last 18 months

Every car made in the gigantic Maxwell factories is just as finely finished, just as handsome an automobile as if it were especially made to be exhibited at the New York Automobile Show, or some dealer's fancy Showrooms.

BUT—and here is a great big BUT—38,000 of these Maxwell Cars have actually been turned out and have actually been driven thousands of miles by 38,000 Maxwell owners.

These owners have driven their Maxwells up hill and down hill—over all kinds of country roads and over

city streets, everywhere that four wheels will go.

Most of these 38,000 Maxwells have been rained on, snowed on, and put to every kind of a rough and tumble test that time and use can give a car—and that's what we mean by the "Acid Test."

If you have any neighbors among

these 38,000 happy owners, ask them to tell you all about their experience with their Maxwells.

If you don't happen to know any neighbors who own Maxwells, here are a few facts to think about—things to consider—then you can come in and see this "Wonder Car" and add up these facts for yourself.

But don't forget this—the Maxwell we will show you is an exact duplicate of these 38,000 tried and true Maxwells that have stood the rough and tumble "Acid Test."

#### And Here Are Some Vital Points to Think Of

##### Satisfaction and Service in a Nutshell

To the automobile owner satisfaction and service means a car of beauty, refinement and comfort combined. One that possesses the many conveniences, is easy and simple to operate, properly designed and constructed of the best materials, and whose operative cost is very low. He wants motor car efficiency and maximum service.

##### All This Has Been Accomplished in the Maxwell

Through the high ideals and standards, wonderful engineering genius, remarkable resources and the accumulated experience gained from years of automobile experience, the Maxwell organization

have accomplished what a few years ago many said was impossible.

##### The Maxwell is Not the Result of an Experiment

It was not luck or the result of an experiment on the public, but good hard business judgment that made the Maxwell of to-day possible.

Able engineers spent months designing this powerful, efficient, light-weight car. The best metallurgists in the world's famous laboratory (the Maxwell's own plant) tested materials and formulated new heat treatment that gave this car a remarkable light weight and yet the great strength which it possesses and which stands all the abuse heaped upon owner-driven cars.

It was real genius that gave to the Maxwell the powerful motor that enables Maxwell owners to go wherever four wheels will travel, over all roads, up all grades, through any sand, any mud.

##### Beauty and Comfort as well as Strength

And Maxwell builders added to this "wonder car," not only all the conveniences, power and durability, but also the refinements and beautiful lines of the much higher priced cars. Pure stream lines, crown fenders, fine upholstery and all the little details that make Maxwell owners proud of their car.

##### Every Feature of Mechanical Construction

Every feature of mechanical construction that is to be found in cars selling at many times its price

will be found in the Maxwell. And in addition there are many mechanical features that are strictly of Maxwell design. How we have improved the lamp, made them rust-proof by using extra zinc and eliminated the hinges, made them dust-proof, easy to clean and adaptable to use in any desired position; the manner in which we have protected one of the best radiators that money can buy from the many twists and strains of the car, in fact, constructed a full floating radiator—the way in which Maxwell has provided for proper lubrication and thorough cooling of the motor and has given one square inch of braking service for every twelve pounds of weight; how our engineers have equipped Maxwell cars with a spring tension fan that adjusts itself to any pressure on the belt, makes the "Wonder."

### The Maxwell Company's Guarantee of Service to Maxwell Owners

No other automobile is backed by a more reliable service than that guaranteed every Maxwell owner. More than 2,000 Maxwell dealers—in every part of this country—are always ready to give expert advice, to make adjustments, and to supply new parts at reasonable prices.

This splendid Maxwell dealer service organization is perfected and completed by the chain of Maxwell owned and Maxwell operated Service Branches. Sixteen great Maxwell Service Stations are so located throughout the country that a Maxwell dealer can supply any part for an owner within a few hours if not in his stock. Maxwell Service is one of the great advantages enjoyed by Maxwell owners.

Order a Maxwell from us now, and when you want it delivered, we will give you your car—not an excuse on delivery day

Philadelphia, 7; New York, 1.

New York, April 17.—The Philadelphia Nationals remained the only undefeated team in the major leagues today when they won an easy victory over New York by 7 to 1.

Alexander had the locals at his mercy and was at his best in the pinches. His star opponent, Christy Mathewson was knocked off the mound in three innings, yielding four runs.

A catch by Becker and a stop by Lobert were fielding features.

New York 1 000 100 000—1 8 5

Alexander and Killifer; Mathewson, Stroud, Ritter and Meyers.

Pittsburgh, 3; Cincinnati, 2.

Cincinnati, April 17.—A ninth inning finish in which Pittsburgh forced Pitcher Brown from the rubber, scoring two runs before the tide was stemmed, enabled the visitors to win today by 3 to 2 and break even on the series.

Killifer was credited with a home run in the first inning when Lefebvre misjudged a high fly. Adams pitched excellent ball and was only taken out to allow Wagner to bat for him at the beginning of the eighth inning.

### MICHIGAN BOWLERS TOURNAMENT.

Grand Rapids, Mich., April 17.—The State Bowling Tournament, which opens here tonight brings to town the crack bowlers from many Michigan cities. Over 110 teams are entered. Thirty Detroit teams will be seen in action. Bay City and Saginaw are sending their best pin-bitters. Manistee will make its debut in fast society. Lansing is sending several strong five-man teams. Grand Rapids bowlers will be represented by some 60 teams. The tournament will last until April 26th.

### DEDICATE ART LIBRARY.

St. Louis, Mo., April 17.—The Clifford Richardson Memorial Art Library, which is one of the notable collections of art books in the world, will be dedicated tomorrow.

Paul More, the noted editor and author, will deliver the dedicatory address. A fund of \$50,000 was left by the late widow of Clifford Richardson for the establishment of the library. The library is located in the City Art Museum, and the rooms have been decorated under the direction of Cass Gilbert.

### THREE EYE WILL OPEN SEASON ON TIME WITH EIGHT CLUBS

CHICAGO, April 17.—The Three Eye League will open its season on time and with eight clubs, whether or not it gets Rockford, according to a statement made today by President Al Tearney, when told the Bi-State League had given up its claim on that city. However the Three Eye was so sure that the national association finally would award Rockford to its circuit that its schedule was drawn up to include the town. If there should be a hitch at the last minute President Tearney said he would place a team in Belvidere, Ill., which is a short distance from Rockford.

### SPORTING NOTES.

Duffy Lewis, the old Red Sox stand-by in the left garden, reaches his 27th birthday today. The sun is not setting on his career.

Miller Huggins admits he has slowed up and is practically out of baseball unless his second baseman goes back on him. The fans will miss him.

That Bat Nelson would put it all over Freddie Welsh in a 45 round go is the dope from those who saw Bat's recent come back at Havana.

Carl Morris meets Jack Reed in a New York bout tonight, and on Wednesday night tackles Al Reich at the St. Nicholas Rink, New York.

Motorcycle is regaining popularity in New England. The season opens on Monday at the old Readville track. 112 races have been scheduled for this summer there.

The Pittsburgh Stove leaguers make merry night, at a beefsteak dinner, to celebrate the Feds' opening in the smoky city. The Pittsburgh and Kansas City teams will be guests of honor.

University, college and school stars are lined up at Des Moines today in the Drake Relay carnival. The leading sprinters of the west are entered.

Princeton oarsmen passed up their holiday vacation to prepare for the clash today with Annapolis. The varsity and freshmen crews figure in the clash today on the Severn River.

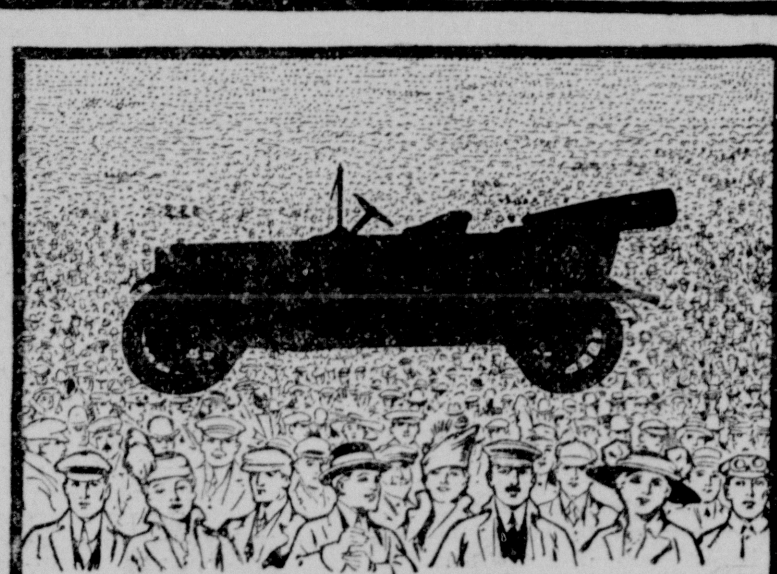

It was 55 years ago today that Tom Sayers fought Heenan. Both men were in bad shape when the English police interfered at the end of the 37th round.

### BANKERS TO DISCUSS FEDERAL RESERVE.

Louisville, Ky., April 17.—The discussion of the new Federal reserve system with special importance attached to the subject of clearance of checks, will be the chief topic on the programme for the annual meeting of the Association of Reserve City Bankers, which meets here Monday next. Bankers from many cities will attend.

### DEDICATE BIG WOMAN'S CLUBHOUSE.

Chicago, April 17.—Ida Noves Hall, the new women's clubhouse and gymnasium at the University of Chicago, will be dedicated today. The donor of the building is La Verne Noves of this city. City officials and women's organizations will join with the University authorities in the event.

### For Everybody's Car

The Standard Oil Company's recommendation is one oil—Polarine—for every make and type of car. We could make a special oil for every type of motor. We have the facilities, the experts and the means.

But the study of every motor car on the market showed that the lubricating needs of all standard makes were identical.

**Polarine**  
REDUCING MOTOR OIL

Polarine—the result—maintains the correct lubricating body at every motor speed and temperature.

Polarine is the best we can produce today. And no other organization commands more experts or has solved more lubricating problems.

Use Polarine. It has proved the cure for the motor troubles of thousands of good cars whose motors bore the blame.

## Curing Catarrh is

## A Simple Method

Go to its Source and the  
Cure Is Then Accomplished.

Only those who have used S. S. S. for the blood know that catarrh is simply a blood trouble.

Most people, uninstructed in this membranous disease, treat their nose and throat as if catarrh was a local trouble. It is not so. To treat catarrh it is necessary to go into the stomach, the liver, the lungs, the kidneys and all the vital organs of the body. And it is S. S. S. that at once enters the entire blood circulation, all the organs of the body, all the mucous surfaces and becomes a dominant factor for renewed health. It is a simple method when you figure it out. Catarrh is plainly an inflammation of the mucous membranes.

And there is in S. S. S. certain ingredients which cause these mucous surfaces to change or convert their secretions into a substance for easy elimination. A special book on this subject will be mailed to all who write to The Swift Specific Co., 110 Swift Bldg., Atlanta, Ga.

Catarrh is very often the result of some other blood trouble, some germ that gets into the blood and multiplies beyond the control of nature. S. S. S. is the remedy. Do not accept a substitute for this matchless remedy. Read the circular wrapped around the bottle. It is important.

**A 54TH ANNIVERSARY.**  
Fifty-four years ago today Company E, 7th Ill. Infantry, went into camp at Camp Yates, Springfield. It was recruited in Adams, Illinois, and was the first company to report for muster during the war of the rebellion. Capt. Alex Smith was an humble corporal in the company then and he says nearly all Springfield turned out to see the boys and the Grey Zouaves escorted them from the train to the camp. It was about four p. m. when they arrived and they created a great sensation. The Grey Zouaves afterward became a part of the command of the brave but ill-fated Col. Ellsworth, who was murdered at Alexandria, Virginia, when he went up in a hotel to pull down a rebel flag. Captain Smith's company served the three months and then enlisted for three years and most of them enlisted at the end of that term, that is, as many as were left.

Corporal Smith rose to the rank of captain, receiving his commission when but a little more than eighteen years old, the youngest person in the army to be thus honored.

## AFTER MANY YEARS

## SEES JACKSONVILLE

A good many people were delighted yesterday by an opportunity to see Charles VanArsdale, now a resident of Pueblo, Colorado. He is traveling for a Cincinnati stationery house and though Jacksonville is not in his territory he came over from Hannibal to see the place he left almost twenty years ago. He is looking fine and is doing well. His brother Louis is occupying an important position in a large dry goods house; Bert is in LaTrobe, Pennsylvania, in a successful business; Mamie is a music teacher in Highland Park college, Des Moines, Ia.; Beesie is the happy wife of Dr. Singer and has three interesting boys and Mr. VanArsdale has retired and is living among his children with all of whom he is very welcome.

## DOG POISONERS ABROAD.

Like the poor we also have the sneak always with us and this time he has been buying himself with dog poisoning. It wouldn't have been so bad if he selected some

"voters" are invited. At the opening of the hour there will be a baptismal service. The "Through the Bible" series will be continued at the morning service commencing at 10:45 o'clock. Sermon V of the series will be given; subject, "Ethnography" or "The Origin of Nations and Languages." The sermon will cover a period of about 700 years of history. The Bible school convenes at 9:30 a. m. preceded by a musical prelude by the orchestra in charge of Pro. Fred Goodrick. Superintendent, Carl H. Weber. The Junior Union meets at 3:00 p. m. Leader, Irene Withee. Mission Sunday school at 2:30, superintendent, Albert DeWitt. Young People's service at the church at 6:30 p. m. All of the services are free to the public. Strangers and visitors will be heartily welcomed.

Second Christian church—Bible school, 9:30. Supt. Mrs. Sherman Mounts. Sermon at 11 o'clock: "The Conversion of Phillip the Jailor." E. M. Harris, minister.

Westminster Presbyterian church—S. M. Morton, D. D., of Taylorville, Ill., will preach morning and evening. Bible school at 9:30 a. m. Morning service at 10:45. Evening service at 7:30. A cordial welcome to all.

Grace church—J. W. Miller, pastor. Sunday school at 9:30. But two more Sundays remain in the contest between the women and girls on the one side and the men and boys on the other. Every member of the church and congregation is urged to attend and help out their representative sides. The Rev. Dr. F. A. McCarty has been secured by the men to address them at 9:45. Every man is invited. Preaching service at 10:45. Sermon by Dr. McCarty. A beautiful trio for ladies voice, "I Waited for the Lord," by Mendelssohn will be sung by the Misses Anna and Grace Leavis and Miss Mildred Spencer. Junior league at 2:30. Epworth league at 6:30. Preaching service at 7:30. Sermon by the Rev. Dr. F. A. McCarty. The choir will sing, "Send Out Thy Light" at the evening service. All are welcome.

Northminster Presbyterian church—Preaching at 10:45 a. m. and 7:30 p. m. by the pastor. The morning subject: "The Victorious Life." The evening service will be evangelistic. The subject will be a red hot revival sermon. The Young Ladies' Missionary band will meet Tuesday evening. The Christian Endeavor will meet at 6:30 p. m. The invincibles' boats will stop at the church Sunday morning at 9:30 to take on passengers. You can take either the White steamer line or the Blue steamer line to Jerusalem. Sunday school at 9:30 a. m. E. M. Vasconcellos, superintendent. Prayer meeting Wednesday evening.

State Street Presbyterian church—Howard D. French, minister. Morning service, 10:45. Preaching by the pastor. Topic: "Peter's Names." Vesper service, 4:30. The sermon theme will be on the last Beatitudes. "Blessed are the persecuted." Sunday school, 9:30. Classes for all ages. Young people's meeting 6:30. The public is cordially invited to all the services of this church.

mangy, worthless cur but instead he chose the fine pointer belonging to Allie Burr. The dog was entirely harmless and disturbed no one while as a trained hunter he was especially valuable. Mr. Burr feels very bad over the loss for the dog was a great pet with the family as well as very valuable. He was called "Hard Cash" and it would have required quite a bit of it to buy the animal from his owner.

## "PAY AS YOU ENTER."

In order to get the public trained to the new order of things the rear ends of the street cars are closed and patrons enter by the front and pay as they go in. At present there is a conductor but when all gets into running order it is probably that one man will be solely in charge of each car. So far the plan seems to work all right and people take good naturedly to the innovation.

## SPANISH COMMISSION

## BUSY HERE.

Philadelphia, Pa., April 17.—The Spanish commercial commission to the United States, the five members of which are now in the country studying its manufactures, agricultural and commercial organization and engineering development with a view to increasing Spanish American commerce and developing improvements at home, has established its headquarters here. During their four months' stay the Spaniards will visit almost every state. To each of the commissioners appointed by King Alfonso has been assigned a special field of investigation. The reports will be submitted to the Spanish Minister of Public Works, who will transmit its recommendation to the chamber of commerce of the Spanish cities.

## LADIES HELD MARKET.

Mrs. W. C. Cole's circle of Grace church held a market Saturday in the windows of the Western Union Telegraph Co. on West State street, and disposed of a nice assortment of good things to eat. The ladies in charge were Mrs. W. C. Cole, Miss Nettie Orear and Mrs. Frank P. Taylor. They reported a satisfactory sale and an enjoyable day.

## Fortified Tires

### Span the Way from Trouble

Goodyear tires have bridged the way for countless men to less trouble and tax. And those men, by their endorsement, brought our last year's output up to 1,479,883 tires.

Why do you suppose that Goodyears hold top place—you who use other tires? They have held that place for years, outselling any other.

The only reason, as you must know, is that Goodyears average best. And that's how they are bound to win you.

### The Super-Tire

They are not trouble-proof. Mishaps come to them, misuse affects them, much like other tires. But Goodyears are Fortified

Tires. They protect you in five ways employed by no other maker. They combat five major troubles in unique

ways, exclusive to Fortified Tires.

These five extra features cost us fortunes. One alone—our "On-Air" cure—costs us \$450,000 yearly. But they save Goodyear users millions of dollars yearly. They avoid countless troubles for them.

### Lower Prices

On February 1st we made another big reduction. That makes three in two years, totaling 45 per cent. We are giving you, through mammoth production, the best fire value ever known.

Please prove this, for your own sake, by the tire itself. The following Goodyear Service Stations will supply you:

## LEGISLATIVE SESSION WILL BE LONG

PROGRESS NOT MUCH FASTER THAN TWO YEARS AGO.

Vast Number of Bills Under Consideration—No Indications of Early Adjournment—Few New Matters in Proposed Bills.

Springfield, Ill., April 17.—Comparison of the work that has been accomplished by the Forty-ninth general assembly with that of its predecessor, the forty-eighth general assembly, indicates that in spite of the driving tactics of Speaker Shanahan, in an effort to shorten the session, about the same progress has been made up to the present time as at the same period two years ago.

To date a total of 1,076 bills have been introduced in the two branches of the assembly, the number being just thirty more than had been introduced after the session of April 17 two years ago. This year the house has produced 730 bills and the senate 346. At this time two years ago there had been introduced in the house only 593 bills but 452 had been offered on the senate side.

With practically the same number of bills before them at this period of the forty-eighth general assembly, the members eventually produced a total of 1619 bills of which 922 went into the house and 695 into the senate. The session lasted until June 30 two years ago and with the progress at the present time running so closely with that of two years ago, it looks like the present session must continue until late in June or else adjourn with an unusual amount of unfinished business thrown into the discard.

So far only five bills passed by this general assembly have been sent to the governor for his signature. Of the five, four were minor appropriation measures and one regarded the taxation of fraternal insurance societies. All were emergency measures. One other bill has been passed by both houses, but has not yet been sent to the governor's office. It is the Igoo bill adding six additional judges to the circuit court bench in Cook county.

### Efficiency Measures.

About the only entirely new proposition brought forward at the present session in the shape of proposed legislation are the measures prepared under the direction of the public efficiency and economy commission as a result of the commission's investigations and work during the last two years. These bills have been laid before both branches and are under consideration in the public efficiency committees of the respective houses. While friends of the plan, which contemplates the entire re-organization of the state government along the lines followed in the national government are not hopeful of getting many of these bills passed at this session, they feel that their presentation will furnish an opportunity for education among the lawmakers upon the proposition which will produce tangible results later.

Only two measures regarding woman suffrage have found their way into the legislature so far. One is resolution offered by Representative W. M. Brown, providing for a constitutional amendment giving women full suffrage. The other is a bill offered by Senator Shaw repealing the present partial suffrage act.

A boxing bill providing for ten rounds, no decision bouts under the direction of a state athletic commission is before both houses. This last week, a bill legalizing betting at horse races was introduced by Senator Denver.

An unusually large number of liquor measures have found their way into the legislative chambers. On the house side these bills have been permitted, under an agreement between the contending elements, to pass along to third reading without objection, it being planned to fight out the issue all at one time. None of these bills have reached the senate calendar.

### Many Anti-Liquor Suggestions.

Included in the anti-liquor measures that have been introduced are bills providing for county option, making more effective the suppression of liquor traffic in prohibition territory, prohibiting the taking of orders in anti-saloon territory for liquor providing for the creation of residence districts in which saloons may not be licensed, prohibiting the sale of less than one gallon of liquor by wholesalers, requiring that all shipments of liquor be plainly labeled on the exterior of such packages, empowering mayors of cities to revoke saloon licenses for violation of ordinances, instead of leaving it in the hands of council or board; fixing a severe penalty for a minor between fourteen and twenty-one drinking or obtaining intoxicants; prohibiting the operations of saloons within five miles of a United States naval or training station in Illinois, prohibiting saloons within two hundred feet of a school building, prohibiting the use of screens, blinds or shades of any kind in saloons, and an anti-treating measure.

The liquor interests have introduced measures repealing the present local option act, cutting the township feature out of the present law, and confining it to incorporated towns and a protective measure prohibiting aliens from owning or operating saloons.

Radical Insurance Proposals. One of the most important subjects of proposed legislation at this time is insurance. State Insurance Supt. Potts, after an investigation of the fire insurance situation in the state, has taken the position

that an insurance "trust" exists and he is advocating not only state control of fire rates, but that the state engage in the insurance business.

Fire insurance bills have been introduced creating a state commission to control rates and other features of fire insurance, authorizing cities to fix a five percent tax rate upon the gross premium receipts of fire insurance companies for pension fund and maintenance of the city fire departments and licensing fire insurance brokers.

Probably at no previous session has more interest been shown in the matter of fish and game legislation than at the present time. A number of bills completely revising the fish and game laws and reorganizing the fish and game department of the state have been introduced. After joint hearings of sportsmen, commercial fishermen, members of the fish and game commission and others, the senate and house committees in charge of the subject have created a joint sub-committee which will draft a bill to be introduced in both branches as a committee bill. This bill will be ready for presentation within the next two weeks.

Gov. Dunne's waterway proposition is now in the hands of sub-committees of the senate and house waterways committees. These sub-committees are meeting with the governor and engineers who are working on the problem with an idea of overcoming objections raised by residents of the city of Ottawa, who, it is said, have been the only objectors to the proposition. When this problem is solved, the sub-committees will report back an amended or substitute bill which the governor will urge for passage.

### Wide Range of Subjects.

Other subjects touched upon in pending measures cover a wide range, but practically all of them may be recognized as old friends, that have been before the assembly session after session without thus far meeting with legislative and executive approval. Included in the lot are bills limiting women's work days to eight hours, prohibiting child labor, a number of railroad bills with the backing of railway employees, increasing passenger fare rates to 2-1-2 cents, several corrupt practices measures, placing private banks under state control, legalizing ten round boxing bouts, amending the Tice good reads act in various ways, abolishing the state board of agriculture and the state board of equalization, amending the civil service law and extending the merit system to Cook county employees, employees of the Chicago sanitary district and otherwise, abolishing capital punishment and providing for an extension of the capitol grounds and the erection of a new state building.

### FRISCO RISES FROM HER RUINS

#### Week's Festivities Celebrate Nine Years' Record.

San Francisco, April 17.—Nine years ago earthquake and flame reduced this city on the Pacific to a mass of ruins. A new city has arisen, in which all nations of the world have joined in an Exposition. Tomorrow will be the ninth anniversary of the great catastrophe, and on that occasion will begin a week of festivity, prayer and thanksgiving by the people of the Golden Gate.

Civic bodies and the Exposition officials have joined hands with the churches to make the ninth anniversary of the San Francisco fire a notable event. Tomorrow sermons will be preached touching on the great victory of the pursuits of peace, and thanks will be offered up for the bounties that have reestablished this great city.

Tomorrow afternoon a monster mass meeting will be held in the Auditorium, at which the Governor the Mayor and many notables will speak. It will be a peace meeting, at which public expression will be given to a spirit of thankfulness for the peace and blessings prevailing in the United States and to the prosperous rise of San Francisco from the ashes of 1906 under the beneficence of peace.

Many events are planned for the coming week in connection with the "Nine Years After" celebration. On Saturday night April 24th, a grand ball will take place in the municipal Auditorium.

Statistics of the catastrophe show that in all 43 lives were lost in the earthquake and fire which visited city in 1906. Of the victims, 266 were killed by falling walls, 177 perished by fire, 7 were shot and 2 died as the result of ptomaine poisoning due to eating emergency canned goods of poor quality. The figures given relate to deaths proven to have occurred. The loss in property, was enormous, the greater part of the city having been reduced to ruins.

### WEST VIRGINIA PUBLIC HEALTH DAY.

Charleston, W. Va., April 17.—Monday has been designated as "Public Health Day" throughout the state by Governor Henry D. Hatfield, and in co-operation with the movement, the churches will tomorrow devote the day to a campaign for better safeguards, through cleanliness and care in and around the homes.

### FISHING AT NICHOLS PARK.

For some years it has been deemed best for all concerned to prohibit fishing in Nichols park (Ill) the latter part of June but at the present time some experienced fishermen say it would be well to permit fishing right along as there are in the lake many large bass which are a menace to smaller fish and the sooner they are out the better, so this spring there will be no postponement of the time for fishing only it is hoped that sportsmen will especially catch those big bass.

### NOTED SPEAKER AT AIR-DOME SUNDAY AFTERNOON

Mrs. Kate O'Hare of St. Louis, one of the best known speakers in the Socialist movement, will speak on "Law and the White Slaver," and "Socialism and the Liquor Problem" at Scott's Airdome at 2:30 Sunday afternoon, April 18th.

Mrs. O'Hare has been a speaker and writer for fifteen years, and has stirred the people of almost every state with her impassioned appeal.

She has held almost every position in the Socialist party, from local to international secretary, has been the delegate of the United States to the international congress held in London, England in 1912, for her impassioned eloquence at this meeting, and at the transport workers strike in Dublin, Ireland, she won the lasting friendship of Jean Jaures, the pro-war martyr.

For years she has carried on a vigorous campaign against child labor. This has brought on her the lasting hatred of the mill owners of the south who have exhausted every means to discover some means to put a stop to her agitation.

Those who desire to hear the issues of the day discussed in an able manner will do well to come and hear Mrs. O'Hare who will interest every one even though they do not agree with her.

She will champion the cause of the oppressed, presenting the logic of Socialism in terms of common and personal experience, and will challenge all opposition.

## Your "Traveling Home" to California Exposition

Going to California even the most direct way requires days—not hours—long enough for you to experience either restful homelike satisfaction, or restless discomfort—irritation. Make a careful choice of routes—based on service.

SERVICE is the big individual feature of the Burlington—and travel-wise people know it. The roadbed is smooth, the maximum of safety insured, train equipment the last word in luxury. Berths are like "home beds". The meals are tasty and varied—reasonable in price—and well served. Burlington trains have all the little added features that distinguish modern "limited" travel. And, best of all, Burlington employees are as courteous as they are efficient. They help speed the days—point out and intelligently explain the wonderful country you traverse.

Because of the liberal provisions of the Burlington's Grand Circle Tour, you can stop over at any point. But if you go straight through, you arrive refreshed—because of pleasant days and comfortable nights.

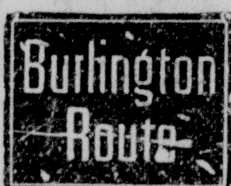

This is the tour de luxe—the Burlington's Grand Circle—through glorious Colorado: Denver, the new Rocky Mountain National (Estes) Park, Colorado Springs, Pikes Peak Region, Royal Gorge by daylight; daylight view of Salt Lake City and Great Salt Lake. Then, Los Angeles, San Diego exposition, and the Panama-Pacific. An Ocean trip by steamer to Portland; the great Pacific Northwest. And homeward bound, via Glacier National Park or Yellowstone Park.

Come in and get your copy of our California Expositions folder.

## WORLD'S MARKET NEWS

### PREDICTIONS OF DECREASE IN VISIBLE SUPPLY RAISES WHEAT

Market Closes Nervous at 1 1/2 to 2%  
Cents Advance—Other Leading  
Staples all score net Advances.

Chicago, April 17.—Predictions of  
a big decrease in the United States  
visible supply total on Monday help-  
ed today to bring about an advance  
in the price of wheat. The market  
closed nervous at 1 1/2 to 2% above  
last night. Other leading staples  
too, all scored net gains—corn 1/4@  
1% to 1 1/2c; oats, 3/4@% to %c and  
provisions 2% to 17c.

Rising prices today in wheat  
quickly asserted themselves despite  
colorless cables and a good deal of  
selling on the theory that a reac-  
tion would follow after a series of as-  
tonishing upturns. It was pointed out,  
however, that Minneapolis stocks  
had been reduced to nearly 12,000,  
000 bushels under what was on hand  
a year ago and that Duluth was ex-  
pecting to move out 10,000,000  
bushels in the near future and was  
said to have sold 1,000,000 bushels  
this morning for export.

Persistent assertion of a lack of  
moisture in the southern part of Il-  
linois, Indiana and Ohio counted  
somewhat against the wheat bears.  
It was said heavy soaking rains  
were needed and that the benefit of  
recent showers should be almost  
wholly counteracted by the south-  
ern winds. Less serious complaints  
of dry soil conditions were received  
from the Dakotas but were made the  
subject of emphatic denials. Mean-  
while signs of foreign buying of  
new crop wheat deliveries here and  
elsewhere notably Kansas City con-  
tinued to bring the market unabated  
support.

Corn showed independent strength.  
In oats much of the business con-  
sisted of the selling of May against  
purchasers of July.

The market as a whole ranged  
moderately higher in sympathy with  
other grain.

What little selling was done in  
provisions came from longs. Shorts  
were kept off by the firmness of  
cereals and hogs.

# AN EDITORIAL

By T. M. TOMLINSON

¶ Jacksonville was founded in 1825. At that time no houses or trees stood on its site. The early settlers came from Kentucky, bringing with them their many slaves.

¶ In 1830 to 1835 it was the largest city in the state of Illinois and the largest frontier metropolis in the United States. In 1838 the first railroad in the Mississippi valley was built from Jacksonville to Meredosia, Illinois.

## IN 1839

the **HOUSE OF CAPPS** was established. All Jacksonville and Morgan county is familiar with its growth. It has been the most important factor in the material upbuilding of our city.

¶ Its founder, Mr. Joseph. Capps, came to Jacksonville in 1838 and one year later established the business which bears his name.

¶ Today it is being operated by the third generation. Their employes number over 450 and they distribute in salary and wages over \$275,000 per annum, all of which is expended here in Jacksonville. There is not an industry here, professional or otherwise, that does not receive its portion. Think what this means to all of us.

# GEORGE S. ROGERSON ASKS THAT HIS RECORD BE INVESTIGATED

Fourth Ward School Board Member  
Resents Suggestion That He Has  
Been Unduly Active in Behalf of  
American Book Company.

The Journal is in receipt of the following letter from George S. Rogerson, dated at Decatur, Mr. Rogerson started Saturday for Naples, N. D., called by the illness of his sister:

Decatur, Ill., April 17, 1915.  
Editor Journal,  
Jacksonville, Ill.

Dear Sir:  
Between Jacksonville and Decatur this morning on the Wabash train, a Jacksonville gentleman showed me Mr. J. H. Danskin's article in the Journal regarding the American Book Co., which, I fear, those who read Mr. Collins' article may think refers to me. My first impulse was to return to Jacksonville on the next train, in self defense, but having all our arrangements made it would be impossible without causing a heavy loss and a lot of inconvenience to my relatives who are ready and waiting for me to start on our trip. I, however, stopped over between trains here to write you this letter. I do not believe the American Book Co. even knows such a person as Geo. S. Rogerson. I can not recall of ever having any communication with them. I have never suggested or tried in any way to induce the Board of Education of Jacksonville to put in the schools any of the American Book Co.'s books, save the arithmetic known as the Milne's Progressive, some four or five years ago, when, I believe, Mr. Bancroft was mayor. I believe he will bear me out it was done in open board and in perfect order. I was instrumental in having the grammars changed, introducing a grammar known as Holland's Lessons in English and published by the Colonial Book Co. of Chicago, Ill. As far as I know, the American Book Co. have only one book in our public schools. If they have more, they were adopted before I was a member of the Board of Education. I believe the teachers of our public schools will agree with me that the two changes in text books above mentioned, were greatly needed and for the best interests of the schools.

I have never received one cent of compensation from the American Book Co., nor I have never done anything for them to warrant any reward. And, as I have stated before, I do not believe that they know who I am. In any event, the following citizens of Jacksonville have my authority to communicate with the American Book Co. at Chicago, Ill. I do not know their street address, and they are at liberty to tell them of all the relations they have had with me. Please note:

E. E. Crabtree, F. E. Farrell, Alfred Capps, Carl E. Black, Mary T. Carriel, T. J. Pitner, F. J. Heintz, M. F. Dunlap, Chas. Hopper, Rev. J. W. Miller, H. C. Montgomery, F. J. Waddell, H. B. Carriel, G. L. Merrill, Rev. F. A. McCarty, Frank Elliott, George S. Gay, Dr. A. B. Morey, Mayor Geo. W. Davis, Judge Owen P. Thompson, O. E. Tandy.

I sincerely hope some of the above named will fully investigate the above matter in justice to one of your fellow citizens.

Yours truly,  
George S. Rogerson,  
Member School Board.

## IN STERLING LIVES A GIRL

Who Suffered As Many Girls Do—Tells How She Found Relief.

Sterling, Conn.—"I am a girl of 22 years and I used to faint away every month and was very weak. I was also bothered a lot with female weakness. I read your little book 'Wisdom for Women,' and I saw how others had been helped by Lydia E. Pinkham's Vegetable Compound, and decided to try it, and it has made me feel like a new girl and I am now relieved of all these troubles. I hope all young girls will get relief as I have. I never felt better in my life."—Mrs. JOHN TETREAU, Box 116, Sterling, Conn.

Massena, N. Y.—"I have taken Lydia E. Pinkham's Vegetable Compound and I highly recommend it. If anyone wants to write to me I will gladly tell her about my case. I was certainly in a bad condition as my blood was all turning to water. I had pimples on my face and a bad color, and for five years I had been troubled with suppression. The doctors called it 'Anemia and Exhaustion,' and said I was all run down, but Lydia E. Pinkham's Vegetable Compound brought me out all right."—Miss LAVISA MYERS, Box 74, Massena, N. Y.

### Young Girls, Heed This Advice.

Girls who are troubled with painful irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should immediately seek restoration to health by taking Lydia E. Pinkham's Vegetable Compound.

## WOMAN'S COLLEGE NOTES.

On Thursday afternoon, April 15th, occurred the graduating recital in voice by Miss Ina Berryman, pupil of Mrs. Hartmann, Miss Berryman displayed a beautiful voice of extended range and true intonation. She sang with admirable understanding of the material, presenting good tone production and authority. She was ably assisted at the piano by Miss Jeanne Obermeyer.

The Madrigal club sang "Come Unto Me Ye Weary" by Sumner Saiter, and "The Lord is my Shepherd" by Bargiel at the State Street Presbyterian Vesper service last Sunday afternoon at 4:30. A great feature in the excellent work of the club this year has been the excellent accompanying of Miss Edith Hillerby. Miss Hillerby has also acted as assistant organist at the Grace Methodist church playing for the large chorus choir under Mr. Stearns' direction.

On Thursday evening, April 22nd the faculty of the College of Music and of the School of Expression will tender a complimentary program to the members of the Morgan County Teachers' Institute. The program will consist of organ solos, readings, voice solos, violin solos and a group of piano solos.

The College orchestra is preparing a program to be given in the future in music hall.

On Thursday, April 15th, the College Glee club sang a program of five numbers in the society hall for the faculty and the students. The club showed excellent results from its training under Miss Louise D. Miller and was enthusiastically received.

## WOMAN'S COLLEGE NOTES.

President and Mrs. Harker went to St. Louis Saturday morning to attend a meeting of the St. Louis Society. They were accompanied by Miss Ruby B. Neville, head of the English department, and Miss Winifred Wackerle, the matron.

Miss Laura M. Chassel of the faculty of the college addressed a group meeting of the Jacksonville district W. F. M. S. at Beardstown Thursday. She spoke on the relation of young people to foreign missionary work.

A number of picnics have been held the present week. On Monday the Sophomores had breakfast in the east woods. Wednesday the Belles Lettres had breakfast at the same place, the Freshman had a picnic there Saturday afternoon. The Academic Society were at Nichols Park Saturday afternoon.

The biology classes have been on a number of field trips recently. The vertebrate section were out on a frog hunt Wednesday afternoon.

Twenty-five students and faculty members took part in a series of mental tests under the direction of Miss Chassel of the Education department. These were designed to test originality and were illustrative of those used in schools and for vocational guidance.

JOSEPH F. BRENNAN  
CANDIDATE FOR COMMISSIONER

Since he assumed direction of the water department the receipts have more than doubled.

The light plant has been completely overhauled and while a new building is needed as well as new wiring, the city now has the best lighting that it has ever known. His purpose has been to place a street light wherever one is needed. No favoritism has been shown and each ward has been treated on the same basis. The water plant has been improved and developed and the constant effort made to supply the people with an abundance of clean water.

He has spent all of his life here, believes Jacksonville is the best city in the state, that business methods should be used in the administration of her affairs, that law and order and the expressed will of the majority should prevail.

Look at his record and if you approve it put a cross in the square opposite his name on the ballot. It is the first under the commissioners' heading.

# OVERSTOCKED SALE

Begins Monday, April 19th, and Will Continue for One Week

We must reduce our stock. Positively the greatest values ever offered.

We bought heavily for spring, expecting a record breaking month's business during March. However, as you are aware, March was an extremely cold month. Consequently, the public did not purchase as liberally as we expected. We now find ourselves overstocked, carrying a much larger amount of goods than we should at this time of the season.

We have decided to reduce this overstock quickly without further delay, and therefore have cut deeply into the prices on all our beautiful Spring Suits, Coats, Dresses, Millinery, Waists, Skirts, etc.

The sale is by far the most stupendous event the EMPORIUM has ever conducted. The goods will be recklessly sacrificed at prices that actually do not cover the cost of making. The stock simply must be reduced at once, and we have applied the price-cutting knife with vim and vigor. We cannot overstate the importance of this sale. Our store will be packed and jammed to its capacity. Many extra sales people have been engaged to wait upon the crowds. We urge you to come early. It is only natural that the earliest buyers will have the best selections.

REMEMBER, SALE STARTS MONDAY, APRIL 19th.

Strap effects are unusually good this season, always a satisfactory style, they bid fair to be more popular this season. We have styles with one, two, three and four bars. Some have beautiful side ornaments that are entirely new. Every woman likes strap sandals—there is so much beauty and daintiness about them. They have that snug fit and shape retaining qualities so important in low shoe fitting.

Let us show you the new style effects they will please you.

### JUSTICE COMES QUICKLY WHEN YOUNG MAN SNATCHES PURSE

Robbery on West State Street Saturday Evening Followed by Quick Arrest and George Williams Held in City Jail.

While walking homeward Saturday evening shortly before 10 o'clock Misses Mary E. and Arnetta Lindsay were accosted by a young man who seemed about to speak but grabbed instead the black leather purse carried by one of the young ladies and made away. The holdup occurred at the corner of West State and Prairie streets and the young women went straightway to the home of E. L. Kinney, 197 South Prairie street, the residence of George P. Davis, the chief of police. The night force was soon notified and the young man of about eighteen years wearing a red sweater and white cap, described by the Misses Lindsay, was arrested on East State street by Officer Moore. The culprit gave his name as Geo. Williams and his residence as East College street and after being locked up in the city prison made confession to Capt. Tracy. Williams is a well appearing young man and it is not known that he has any criminal record.

The purse was found in the high school yard at a point mentioned by Williams. The owner gave a small sum in change as the contents but when recovered there was no money in the purse.

### MR. PRATT WILL PLACE SCHOOL INTERESTS FIRST

To Second Ward Voters:

I became a candidate for member of the board of education in this ward which has been my home for past 25 years because of my interest in the school system and because of my desire to be of service in school matters. I did not become a candidate because urged to do so by any party leader or leaders and if elected to the board I will enter upon my duties without having made a single promise other than to seek to do my whole duty and to work for the best interests of the schools. I hold no enmity toward any member of the school officers or teachers and would not begin my service as a board member with any wish to punish or reward any person. I have long been a Republican and am loyal to the party, but I do not believe that my record justifies anyone in classing me as an intense partisan. If elected next Tuesday I will place nothing higher than the general welfare of the Jacksonville schools.

**ANNIVERSARY DATE RECALLED.**

Fifty years ago today S. W. Nichols became the superintendent of the Bethel A. M. E. Sunday school and he continued to serve in that capacity for 28 years. Since that time he has visited the school once each quarter to review the lessons. A well known colored citizen last night referred to the anniversary and said "Mr. Nichols served us long and well. With Rev. David King, also of Illinois college, he established a night school also where colored people, old and young, were taught reading, writing and other common branches. Mr. Nichols, wife and his sister, Mrs. Sanford, assisted in the work which was designed especially for those who under conditions of slavery had no chance for an education. Many of the colored people of this city owe a great debt to those who conducted that school." Jacob Davis is said to be the only survivor of the original class.
